Rice Granary Plan Makes Progress

**Merchants Promise to
Subscribe to Purchase
Of Grain for Public**

Mr. Yu Ya-ching's public rice granary plan is definitely taking shape as bankers, rice merchants and other public bodies have promised to buy the needed 200,000 bags of Saigon rice. The Public Rice Granary Management Committee, composed of nine persons connected with both official and business circles, has been formed and it has held its first meeting.

Under the committee, there are four divisions, each headed by a group of capable persons. They are the purchasing, custody, sale and transportation divisions. Messrs. Yu Ya-ching, Wang Yu-ching and Chen Tze-yi have been appointed to serve on the special committee of the purchasing division. Mr. Yulin Hsi, a member of the Shanghai Municipal Council and a well known Chinese accountant, has been appointed treasurer of the committee. A Chinese and a foreign accountant have been appointed as the committee's accountants.

It has been decided that those who have promised to buy the grain for the public granary must pay half of the money needed before January 15. The committee is still looking for a suitable person who will take charge of the granary itself.

Chinese reports still insist that the authorities have sent out representatives to investigate rice godowns in Shanghai with a view to discovering hoarders of rice. It is also reported by the "Chinese American Daily News" that registration of goods destined for godowns will soon be started. By means of registration the names of owners of rice, date of entering godowns, and prices quoted at places of production will be made known. There will be a time-limit for the godowns to clear the goods. If these measures are faithfully carried out, merchants can no longer manipulate in the market by hoarding commodities.

ARRIVAL OF 1,500 BALES OF RICE FOR JAPANESE RESIDENTS

Through the good offices of the Japanese military authorities, 1,500 bags of rice (one bag contains 100 kilograms of rice) have been imported for the first time to mitigate the rice shortage of all Japanese residents. The Japanese Residents' Corporation has decided to supply the local Japanese in general with the rice at the lowest possible price through the Shanghai Grain Merchants' Guild from January 8 at the latest. The rice can be bought at retail-shops as heretofore. Referring to the result of this first trial, the authorities concerned will devise the best method of supplying the Japanese with rice.

CHEAP RICE SUPPLY FOR JAPANESE

Arrangements Are Made
To Distribute 1,500
Bags In Hongkew

Not only are Chinese in Shanghai affected by the prevailing high price for rice but Japanese residents are likewise greatly concerned and have for some time studied various measures to alleviate the uneasiness in Japanese kitchens, the Japanese daily, Shanghai "Mainichi" reported last evening. The daily said that the problem would be alleviated shortly when the first trial lot of 1,500 bags of high grade rice would be distributed at a reasonable price and repeated at frequent intervals. The existing abnormal price of rice and foodstuffs in Shanghai constitutes a grave social problem along 80,000 local Japanese and it cannot be overlooked, the newspaper declared. Since last year the Shanghai Residents' Corporation has been in negotiation with Japanese military authorities concerned for supplies of cheaper or reasonably priced rice of high quality.

The Residents' Corporation yesterday obtained an initial trial lot of 1,500 bags or 150,000 kilogrammes of rice and is preparing to consign it to local Japanese Rice and Cereals Merchants' Guilds to be distributed among Japanese residents at a fixed price, which, the paper said, would be close to the wholesale price.

Chinese residents in Hongkew will equally be afforded the opportunity to purchase the cheap rice and sales to Chinese will commence to-morrow and continue for the next two weeks or until the Chinese New Year.

The rice will be distributed to 60 shops in which an inferior grade of Saigon rice will be sold at \$1 for two cattles with each shop selling about 50 bags of such rice daily, the report concluded.

Food Co-operative Body Formed Here

Small Quantities of Rice
May be Ordered

The Shanghai Foodstuffs Co-operative Society, a new organization started by some well-to-do Chinese, has placed an order for 500 bags of Saigon rice and the grain is expected to arrive here by the middle of this month. The society welcomes any residents to register for buying, even between one and five bags of rice.

The society has two kinds of members, the ordinary and permanent. The sole purpose of this new organization is to enable ordinary people to buy rice directly from the place of production by registering with the society and by depositing only part of the money required before the rice arrives.

All freight, godown, insurance and other charges or fees are to be borne by those who have placed orders with the society, collectively and proportionately. The first consignment of 500 bags of Saigon rice ordered by the society will be distributed to permanent members who pay membership fees.

This new co-operative movement is different from the collective purchasing movement started some time ago for buying rice, because promoters of the latter movement received orders from big firms and factories, each requiring at least 50 bags of rice. Now even salaried individuals may buy smaller quantities of Saigon rice through the new society without the help of middlemen or rice merchants.

RICE CO-OPERATIVE IS FORMED HERE

Aims To Assist Middle Classes By Buying Rice Directly

In order to protect the lower classes of Shanghai from manipulations of rice merchants philanthropists in the city have organized a Rice Consumption Co-operative to undertake small purchases of foreign rice direct from the countries of origin.

Selling a bag at approximately \$100 the Co-operative asks for a \$25 deposit on all small-scale purchases the remaining part of the payment being required as soon as the staple product arrives in the city. This novel way of purchasing rice is expected by local merchants to assist small purchasers inasmuch as they will be spared the necessity of paying higher prices for rice when buying from dealers who, apart from their profit on every bag of rice, also charge commission fees.

Bankers in the city, it is learnt, have been approached by the new Co-operative with requests to help finance purchases of Saigon and Rangoon stocks as deposits required from consumers are insufficient to cover those required in Saigon and Rangoon.

Control Exercised in Rice Market

Attempt to Curb Outside Speculation

Middlemen, who have been blamed by the Chinese press for the recent increase in the prices of rice, were not allowed by the authorities to enter the Shanghai Rice Market yesterday and a most unusual situation was created since there were no sellers operating. The middlemen, it was learned, did some business secretly outside the Shanghai Rice Market where more policemen were assigned to watch for activities of manipulators. Those who entered the market were registered.

The market was crowded with buyers but little, if any, rice was offered for sale. Very few people did business according to officially fixed prices because while buyers thought that the official prices were still too high, sellers hesitated to sell, still trying to wait for high prices. Informed Chinese circles believe that such a situation should be the source of grave concern to the authorities. The situation indicates that hoarding is still being practised and it is believed by the same circles that unless the authorities take drastic measures only little improvement can be expected.

Price of 14 kinds of foreign rice fixed with official permission and ranging between \$75 and \$104 per picul were officially announced in the market and no one was allowed to sell his grain beyond the official level.

Price Drop Due**Indo-China
Lifts Ban On
Rice Export**

The official ban on the exportation of first-grade rice imposed nearly a month ago by the French Indo-China government has been lifted, and 80,000 bags of the grain are now en route to Shanghai, trading circles here reported yesterday.

Lifting of the ban was expected to have a favorable effect here when the rice market resumes operation tomorrow in view of the fact that the ban was one of the immediate causes which considerably boosted rice prices here early this month.

The reports also stated that large quantities of the rice had been stored up in Indo-China ports, particularly Saigon, waiting to be transported to Shanghai. Large importers here were said in the process of chartering immediately available bottoms to transport the rice here.

Meanwhile, further efforts were made in Shanghai to steady rice prices. The Market Control Committee, at a meeting on Christmas Eve, adopted new regulations to curb price manipulation by profiteers and speculators at trading sessions.

One of the regulations adopted at the committee meeting provides that effective immediately only bona fide traders will be admitted into the market, the contention being that non-members of the local rice guild are largely responsible for "unlawful trading."

Preparations were being completed by the Cheap Sale Committee to launch sale of broken rice next week. Funds are still being solicited to support the sale.

RICE MART NOTIFIES DEALERS ABOUT THE STRICT ENFORCEMENT OF NEW RICE PRICE LIMIT

Of late, owing to the drop in the exchange rates, the price of foodstuffs in this city has been increasing. Some traitorous rice merchants have been very active in the rice mart and are secretly effecting private transactions.

With a view to stabilizing strictly the rice price, the Shanghai Rice Price Adjustment Committee convened on December 25 an emergency meeting at which it was resolved to fix a new price limit on foreign rice. The rice mart was notified that the new price limit would be enforced as from December 26. Rice dealers are forbidden to enter the mart for two weeks with a view to curbing speculation.

In the meantime, the S.M.C. has detailed many policemen on duty at the mart for the purpose of supervising the transactions. If any one wants to sell Siamese rice in the mart, he must first register it at the Control Department of the mart, otherwise he is not allowed to sell it in the mart. If any one is found dealing in private transactions or speculation on rice, he will be arrested and punished.

An investigation made by a reporter at the rice mart revealed that at 7 a.m. yesterday the policemen on duty at the rice mart strictly forbade rice dealers to enter the mart with the exception of those who possessed entrance passes or documents of the rice importation companies.

At the present time, the Bean and Rice Trade Guild together with the Provision Trade Dealers, Lien-Nyi Society sent out notifications advising their members not to enter the mart for the time being and to wait for a strong protest by the society.

After the strict enforcement of the limit, the rice mart has appeared to be normal, with private transactions disappeared. More samples of middle and low grade foreign rice were offered in the mart, while a large number of hoarders are still taking the attitude of bystanders.

It is learned that the Rice Mart Control Committee has requested the S.M.C. to detail officers to investigate the rice hoarders and their stocks in godowns in order to make them sell their stocks. If this can be done, the price of rice may be gradually stabilized.

As the authority of the Chinese Government cannot reach here for the time being, conditions in Shanghai have become more and more complicated every day. If they still fail to awake and atone for their sins, then when the "rivers and mountains" are recovered, they will not be able to avoid the infliction of the most severe punishments.

In connection with the adjustment of the prices of commodities in Chungking, the Government, apart from punishing traitorous merchants, have appropriated \$50,000,000 for the purchase of provisions and their transportation to Chungking, and \$20,000,000 for the purchase of other daily necessities, the transportation of which will be free of charge. These provisions and daily necessities will be sold to the people at cheap prices. The proposal of the Settlement authorities to establish granaries is for the same purpose and a fundamental measure. It is hoped, however, that the leaders of the various trades will observe the will of the Government and the Settlement authorities and fulfill a portion of their duty as Chinese citizens by proceeding with this proposal with a just and prudent spirit so that the common people may be benefited.

THE STABILIZATION OF THE RICE MARKET AND PRICES OF
COMMODITIES

As the question of the foodstuffs of the people in Shanghai is under the control of the traitorous merchants, the burden of living has become unbearable to the general public. Though the various circles have tried to remedy the situation, there were few practical effective measures as the ordering of foreign rice had to go through the hands of the unscrupulous merchants while the pressure of the limitation of prices was not so strong as that of the hoarders. When all their tricks were exposed by others, those people who had carried out manipulation by taking advantage of the situation were so bold that they even admitted that without large profits nobody will offer supplies. Hence, the price of rice has been unceasingly increasing and was also followed in increase by all daily necessities.

Of late, the authorities in the International Settlement have accepted suggestions by certain quarters and invited the various trades to discuss the establishment of granaries so as to accumulate provisions for public sales in an attempt to stabilize the price of rice. When such measures are put into enforcement, the hoarders and unscrupulous merchants will no longer be able to carry on their control; though the price of rice may not suddenly drop, it is probable that the gloomy atmosphere in the market will be gradually cleared up.

Taking advantage of the time when the country is engaged in a war of resistance, the traitorous merchants are sucking the "fat and blood" of their own fellow countrymen. They are also disturbing the social order and harming the economy of the country. A sentence to death is not punishment severe enough for them. Now, the inner districts of China have also been affected by them. Many traitorous merchants have engaged in hoarding. The sharp increase in the price of rice greatly concerns the general situation. Recently, strict suppression of hoarding has been put into force in Chungking. Yang Chuen-yu (楊純宇), an ex-Mayor of Chengtu, was executed and other speculative traitorous merchants were punished. As a result of this, the price of rice in Chungking has at once become stabilized and hoarders of other commodities were so greatly alarmed that they immediately sold out their goods.

After the Chinese troops recaptured Nanning and smashed the Japanese winter offensive to atoms, news from quarters concerned revealed that during this period the Chinese Government would, whilst waiting the arrival of large quantities of arms, endeavour to deal with the question of the prices of commodities. As a result of the present adjustment on a large scale of conditions in the rear by the authorities, the camp of the war of resistance has become firmer. It is presumed that the time to break down the Japanese attempt to "freeze" her war of aggression in China will not be far away.

JAPAN IS BEING ENVELOPED

The diplomatic policies adopted by Japan in her relations with foreign nations are intended to prevent Britain and America from coming into close contact with Soviet Russia. This is the reason why at some times Japan assumes an anti-Soviet Russia attitude with the intention of currying favour with Britain and America, while at other times she harps on a pro-Soviet Russia tune in order to intimidate Britain and America. Such tricks are merely aimed to make use of the strained relations between Soviet Russia, on one side, and Britain and America on the other to fulfil her ambitions of establishing her hegemony in the Orient. However, it has transpired to Japan's surprise that Britain and America have already had a clear insight into Japan's ambitions, while Soviet Russia has also realized that there will be no justice in the world if Japan succeeds in accomplishing her continental policy.

Before the signing of the Tripartite Alliance, Britain still thought to appease Japan, but she dropped the idea and adopted a firm stand similar to that of Soviet Russia and America when Japan took the side of Germany and Italy. On the other hand, the U.S.-Soviet relations have recently shown great improvement as evidence the creation of an American Consulate at Vladivostock. This has not

RICE PRICE FIXING BODY HOLDS MEET

Plans Made To Impose New Restrictions On Rice Trade

In another effort to put a stop to profiteering in the Shanghai rice market, the Rice Price Fixing Committee held an extraordinary meeting at 11 a.m. yesterday when plans were made to impose further restrictions on rice trading.

The Committee headed by Mr. Cheng Tze-yih, well-known local businessman, yesterday passed a resolution to fix prices of five new varieties of the staple product. Deciding to leave the present maximum price of Saigon first and second grades at \$87 and \$81.50 respectively, the Committee announced new prices for Siam first grade at \$89, Tonking at \$79 and mixed low grade at \$76, to be enforced as from December 26.

Another decision reached was the banning of all rice brokers and commission agents from the Market, entry to which will be reserved only to owners of licensed rice hong.

Meanwhile, the rice market remained very quiet yesterday, with no changes of prices reported. Native first grade rice, however, was still not quoted, as merchants were still unwilling to part with their stocks unless at a higher price than that prevailing.

The Indo-China Government, it was learnt yesterday, intends to curb all manipulations of rice exported from the French colony and has prohibited the substitution of first grade Saigon rice, which was banned from export by the second grade staple product of Indo-China.

However, to improve the local rice situation, the Government of Indo-China has placed no restriction on exports of 100,000 bags of rice to Shanghai during the month of January.

Substitution of Saigon Rice Forbidden

Minimum of 100,000 Bags To Be Imported Here

The Rice Sub-Committee of the French Municipality issued a communique yesterday afternoon in which they stated that the Governor-General of Indo-China had forbidden any substitution in the quality of Saigon rice, in order to maintain an efficient control of the rice market.

It was also stated that a minimum of 100,000 bags of Saigon rice will be imported to Shanghai during January to keep the stocks on the same level. Taking into consideration the stocks already here and the quantities to be received here before February 1, the prospects for this winter are reassuring.

The same regulations will apply for February and there is every probability that Shanghai will not suffer from lack of rice stocks for many months to come.

Huge Shipment From Saigon To Arrive Here

In order to maintain an orderly rice market in Saigon the authorities in French Indo-China have decreed that no substitution of lower qualities for higher qualities would be allowed in contracts for future delivery. Cargoes of first-grade Saigon rice, therefore, the export of which was prohibited in December, cannot be replaced with cargoes of second-grade qualities but will be delivered in February.

Informed circles expect that 100,000 bags at least will be released for the transportation to Shanghai in order to keep stocks here at a normal level.

If one takes into consideration the quantities of rice already stocked in Shanghai and the expected arrivals during January from Saigon and other ports, the prospects are very reassuring.

Export restrictions concerning Saigon rice will be cancelled in February, it is expected. These restrictions were entirely due to a depletion of stocks, it was learned. Barring unforeseen events, therefore, there will be no shortage of rice in Shanghai.

Financial Rumours Disturb Market

Rice Prices Raised on Foreign Exchange Reports

The reported intention of Nanking to issue new bank notes, the rumour that Chungking will change its official rate of the foreign exchange, which has been denied, and the resultant increase of the price of the gold bar, has been followed by a general upward trend in the important commodity market in Shanghai. While the Chinese press gave prominence to a Chungking report that a former Chengtu mayor was shot for hoarding foodstuffs, Shanghai rice merchants met yesterday and decided to increase prices of Saigon rice to a higher level than the one fixed at a recent meeting in the presence of municipal authorities.

The merchants who form the Shanghai Rice Price Fixing Committee decided to fix the first grade Saigon rice at \$89 per picul, while the price of even the first and second grade broken Saigon rice was fixed at \$76. These decisions will be referred to official quarters but the trend of the story is that prices are being increased and not decreased. Reports indicate that the reason is that the increases were preceded by the stringency prevailing during the past few days in the foreign exchange market, but informed Chinese circles are sceptical since prices are being increased for selling rice already stored in Shanghai godowns.

Following the high price of gold bars which once jumped beyond the \$6,800 mark (for a 10-ounce bar) as compared with the Saturday figure of \$6,300, the price of cotton also jumped, and reports yesterday indicated that it once reached \$1,375 per bale, showing an increase of more than \$40. Prices of bean oil and yellow beans have also been increased during the past few days.

Mayor Chen Promises to Send 14,000 Piculs of Rice Here

Agrees to Negotiate with Japanese to Relieve Suffering with Native Rice Monthly Shipment

MAYOR Chen Kung-po of the Shanghai Special Municipality promised yesterday to negotiate with the Japanese authorities for allowing 14,000 piculs of native rice to be transported each month to Shanghai from the occupied interior and to have the joint police bureau in the western district established early next spring, the draft agreement on this question having finally been referred to him for the new Nanking regime's approval.

These promises were made during a reception given by the Mayor in honour of foreign newspapermen yesterday afternoon at his office in the Civic Centre at Kiangwan. During his first interview granted to the foreign press here the Mayor answered questions concerning the two most important problems confronting all people here but he said that he was aware of the fact that the rice question did not affect Shanghai alone but also the occupied areas.

"I assume full responsibility for having 14,000 piculs of native rice sent to Shanghai monthly for which negotiations have been going on," Mayor Chen said "but the same question affects also other Lower Yangtze districts." Asserting that he would be mainly concerned with the Shanghai situation, he hinted that Nanking would tackle the problem in an all-round manner and refused to discuss details when questioned regarding transportation difficulties between Shanghai and occupied areas as a whole, including exorbitant taxation. His government emphasized action and not words, he said.

Aware of Hoarding

While discussing the rice situation, Mayor Chen pointed out however, that south China and Shanghai had never depended on native rice alone. He said that as a matter of fact China used to import 16,000,000 piculs of foreign rice monthly and that 80 per cent. of this foreign grain went to feed the people in south China in general and those in Kwangtung in particular. Twenty per cent. of the grain came to Shanghai as the pivot of transportation to other parts of the country. Mayor Chen was aware of the hoarding of rice in the Settlement and expressed the hope that the Settlement authorities would cooperate with him in settling the problem.

Turning to the question of the extra-Settlement roads in the western district, Mayor Chen said that a draft agreement had already been reached on the question of organizing a joint police bureau in the area. He was studying the agreement before it could be referred to Nanking for final approval. The question would be settled early next spring and he was of the opinion that it should not take more than a month to establish such an office. He hinted that the revenue question in the district was a separate issue, explaining that the whole establishment should be under his city government.

"Revenues in the district will be collected by our Bureau of Finance officials who will have a branch office in the district and the money will be used for the development of the area. If the fund is not enough to cover reconstruction projects in the district, the Shanghai Special Municipality will subsidize the branch office. If the revenue money is

more than enough, then it will be used for further improvements in the district." This was the explanation given by the Mayor concerning the financial question in the area, which has been the chief bone of contention.

"Politics Left Aside"

Although most of the Powers interested in the Settlement affairs have not recognized his government, Mayor Chen does not see any reason why they should not cooperate in settling administrative questions to the advantage of all. Politics could be left aside, he said. Recalling his past experiences, Mayor Chen said that as the virtual chief executive and foreign affairs commissioner in Hankow when the National Government was established there during the Northern Expedition, he successfully carried out negotiations with representatives of foreign countries despite the fact that there was no official recognition of the then Chinese regime.

Mayor Chen was not aware of the reported notice seen in the western district that licence tax would be collected from rickshaws bearing Settlement licence plates. He promised to investigate the matter. He said that all petty disputes arising from the present unsettled conditions in the area would be discussed with Settlement authorities at meetings to be held later. He has already called on Mr. W. J. Kerwick, chairman of the Shanghai Municipal Council at the latter's shipping firm office. He has also seen Mr. G. G. Phillips, Secretary and Commissioner General of the Council.

TRADE GUILDS AND THE RICE PROBLEM

At 3 p.m. December 16 a meeting was held by the Executive and Supervisory Committees of the Shanghai Municipality Bean and Rice Trade Guild and the Provisions and Cake Trade Guild, at which the following resolutions were discussed and passed:-

(1) That, in view of the fact that transactions conducted at the rice mart are mostly handled by brokers, members of the Rice Mart Control Committee be asked to make strict enquiries into such dealings; that in case the Rice Brokers' Lien-Nyi Society fail to report any cases of private transactions actually taking place, all brokers who are members of the Society be denied access to the rice mart; that any member of the two Guilds who is found taking part in such transactions be likewise denied access to the rice mart in addition to cancellation of their membership and the authorities being requested to take action; that all the foregoing measures be strictly enforced so as to facilitate the stabilization of the rice market and the preservation of the fixed price of rice as well as the prevention of private transactions.

(2) That a letter be sent to the French Consul-General asking him to send a telegram to the Indo-China authorities requesting them to permit the exportation of first grade Saigon rice ordered by rice dealers in Shanghai.

(3) That the proposal for the establishment of a granary for the storage of rice be supported.

A Granary Establishment Committee has been formed and more than 20 persons were elected members of the Committee at the meeting.

A meeting was also held by the Rice Brokers' Lien-Nyi Society on the afternoon of December 16 at which it was resolved that commencing from date members of the Society handling rice transactions at the market should observe existing regulations and refrain from doing anything contrary to these regulations.

Several groups have been formed to supervise the activities of brokers at the rice mart. Whoever is found acting as an intermediary in rice transactions in a manner contrary to the regulations will be fined.

Chinese Rice Quoted At \$100 A Picul

A limit having been placed on the price of foreign rice, stock owners cannot now raise prices as they like. However, they are selling rice of inferior quality at the highest price. The price of broken rice rose as high as \$80, whilst the best quality Chinese rice was sold at \$100 per picul yesterday.

Two Resolutions Reached by Market Controlling Committee

A meeting of the Market Controlling Committee of the Rice Hong Owners' Guild was held in the Tsing Lien Koh Teashop at noon yesterday. All members were present.

Price Of Rice Drops Below Maximum Level

Chinese Newspaper Hits Price Fixing Scheme
As Legalization Of Speculation;
French Await Information

With prices falling steadily on the local market, an Evening Post survey today revealed that rice was selling in some categories below the official fixed maximums established this week at a conference of Municipal officials and leading rice importers and dealers.

The Shun Fao, influential local newspaper, however, bitterly assailed the price fixing as "an attempt to legalize the high prices boosted up by speculators." The paper charged that the maximum level is certain to be ignored soon because "nobody is paying any attention to it" and "maximum prices have always been changed to follow the record price boosts of speculators."

Prices Lower

In rice shops throughout the city an Evening Post reporter learned that prices of first grade Saigon rice are averaging \$35.50 a sah, considerably below yesterday's level of \$37 to \$38.50 and below the fixed maximum of \$37. Second grade Saigon rice was selling this morning at \$31.50 the same as yesterday and at the exact maximum price.

Dealers attributed the price drop to the arrival today of 70,000 bags of rice from Indo-China aboard the D'Artagnan and the generally accepted belief that the French colony will not place any difficulties in the way of importers attempting to bring rice to Shanghai.

Indo-China Word Awaited

Meanwhile, French Consul-General Roland de Margerie said he was still awaiting official word from Indo-China concerning the reported colonial ban on exportation of Saigon rice. Mr. de Margerie said he has asked for com-

plete information on the situation but as yet has received no replies. He said, however, he expects to confer at length with members of the Indo-China trade delegation which arrived here today en route to Japan in an effort to learn what regulations will be enforced covering the entry of Indo-China rice into this city.

Studied Figures

Mr. de Margerie said he had studied figures indicating large quantities of rice from the south had entered the city in recent weeks and hoped that rumors that an export ban would be promulgated were exaggerated. He said he felt that sufficient stocks were on hand to meet present needs and that he saw no immediate danger of shortage.

Settlement police meanwhile continued a shop-to-shop survey of rice dealers but no evidences of profiteering had been unearthed up to this morning, an S.M.C. spokesman said. He declared that prices have dropped since this week's rice granary plan adoption but that they may rise again once the initial interest and fervor has died down.

"However," he said, "the police have been instructed to make investigations and it is generally understood by the public that we will act where charges of profiteering are backed up by the facts."

Rice In Shanghai

HUGE RICE STOCKS are said to be on hand despite apparent shortage, and speculation is continuing despite official efforts to establish maximum prices by various expedients.

Our impression is, was and probably will be that there is not going to be any very fundamental solution of the rice problem on a basis of superficial treatment.

Last autumn a simple and workable plan was set forth by our financial editor, Mr. John Ahlers, who pointed out that the Shanghai rice problem should be singularly easy to grapple with because it is a "racket" in which the big dealers—a mere 15 control 95 per cent of the trade—perform no useful service whatever. They don't even bring the rice to Shanghai.

With the aid of some small determination plus an amount of money easily within command of Shanghai's industrialists and the capital market (recently proved to be more than ready to leap aboard a "good thing" in the way of stock offering), a rice-purchase structure could be set up which would take over either full or large-degree control of the rice market and assure rice at a reasonable rather than a profiteering figure.

At the very least, rice could thus be provided for Shanghai's industrial and other rock-bottom workers. They might be given a standard rice allowance in lieu of part of their wages. With a little extension, this plan could provide rice for all Chinese residents at fair prices. Capital would profit by this arrangement in a variety of ways, not the least of which would be a diminution of workers' unrest.

Any other plans strike us as a mere nibbling at a problem which might easily be bitten off and chewed up completely.

MR. YU YA-CHING'S SUGGESTIONS TO THE S.M.C. ON LOCAL RICE SITUATION

In view of the grave rice situation in this locality, Mr. Yu Ya-ching, Chinese member of the S.M.C., plans to raise a sum of \$15,000,000 for the purchase of 200,000 bags of foreign rice.

Mr. Yu has sent the following letter to the

S.M.C. :-

"The price of rice has been on the increase since the outbreak of local hostilities. The price of native rice is about \$100 a picul, while that of foreign rice is \$80 a picul. There is a tendency of further increases. This is all due to the spreading of groundless rumors.

"The 36,000 bags of rice ordered by me sometime ago have all been sold out at reduced prices, and it is regrettable that misunderstanding has arisen over this matter.

"I have been engaged in business in Shanghai for the past 60 years, yet the public seem to entertain some doubt about me. Rice merchants dare not undertake risks for fear of criticisms and as a result, the stocks of rice are diminishing.

"I hereby request the Council to hold a meeting, with the assistance of the French Municipal Council, of representatives of the Chinese Chamber of Commerce, the Bankers' Guild, the Native Bankers' Guild, rice merchants and cotton mills to discuss the raising of funds to purchase 200,000 bags of Saigon rice to relieve the local rice situation."

A second letter sent by Mr. Yu Ya-ching to the S.M.C. reads as follows :-

"I am forwarding particulars regarding orders for rice passing through my hands. They were put out on sale at times of arrival and there has been no hoarding. Proofs provided by agents and men in charge of the rice are available.

"I have been engaged in trading in Shanghai for the past 60 years, during which period I have taken part in most of the enterprises in Shanghai contributing to the welfare of the public. The Council is requested to detail deputies to make a full investigation with the object of ascertaining whether or not there has been any hoarding."

Who Gets Rice Profits?

SAIGON GRAIN COSTS LESS THAN THAT FROM
A FEW MILES OUT OF SHANGHAI; ARMY
IN OCCUPATION HOLDS KEY

EDITORIAL ARTICLE

(Finance & Commerce, Dec. 11)

WEEK BY WEEK the rice problem in Shanghai is becoming more serious, not primarily because of any scarcity but because the price level of this absolutely essential food is placing it entirely beyond the reach of the poorer working classes.

When the position was reviewed in *Finance & Commerce* on October 9th, it appeared to be about as bad as it could be. Yet there has been deterioration since then. Although the price of rice has declined considerably in the neighboring country districts, it has risen steadily in Shanghai itself. There lies the root cause of the whole trouble. As with cotton, so with rice, Shanghai is an island cut off from its normal source of supply. Cheap sales of imported rice carried through at a loss by charitably disposed individuals may serve to some small extent as a palliative, but hundreds of thousands of people cannot be fed permanently in this way, and if hard economic facts are faced and the cost of rice in foreign markets, calculated in depreciated dollars, is added to the charges for freight and insurance, it will be realized that all attempts to secure artificially any substantial reduction in retail prices must fail.

THERE IS no desire to deprecate trade control measures. Everything possible should be done to prevent profiteering in a situation which is becoming desperate. But after all is said and done, it will inevitably be found that the only real solution is the opening up of the hinterland and the sweeping away of the barriers which now prevent access to the domestic crops. And, unfortunately, that solution is outside the reach of the Shanghai Municipal Council. The final word rests with the army in occupation.

The Saigon-Shanghai freight rate is now around U.S.\$10/1, a ton, about double what it was six months ago, and is approximately equal to the freight across the Pacific from Shanghai to San Francisco. Insurance is 5% of the value of each bag of rice. But notwithstanding these terrific charges foreign rice imported from Saigon is cheaper in Shanghai today than the rice grown within a comparatively few miles of the city. Great profits are obviously being made somewhere but it must not be imagined that they are falling into the hands of the Chinese farmers or dealers.

AS REPORTED in *Finance & Commerce* of October 9th, the Chinese farmers were then receiving between CN\$15 and CN\$18 per sah (80 kilos) for their paddy. They now obtain not more than CN\$8 or 10. A hundred kilos of paddy will yield about 75 kilos of rice, and in Wush and Wuhu, which are important milling centers, the price of rice is now around \$35 a sah. As will be seen, the farmer is paid a maximum of CN\$13.30 for the paddy which will give this amount of rice. After allowing for all legitimate expenses for collecting, transport and milling, the difference of \$31.70 suggests that there

has already been heavy taxation, but the average price of this rice when brought to Shanghai is \$82. This extra CN\$47 added to the cost of rice en route to Shanghai represents a burden placed on the back of the Shanghai worker which he is quite unable to bear.

Moreover this presents the problem from the point of view of price only. Quantities available for Shanghai are extremely limited. Rice crops in Central China are between 6% and 10% less than last year, but this does not account for the scarcity of supplies. Under normal conditions there would be enough rice to meet Shanghai's needs for the full twelve months. There are, however, the requirements of the Japanese armies to be considered and over and above this, it is estimated by competent authorities that a minimum of 700,000 tons of rice have been exported to Japan within a year, most of which comes from the Central China districts. Shanghai now consumes approximately 24,000 tons monthly, or say, 290,000 tons a year, and of this amount only between 10% and 20% is received from the neighboring territory. During the first ten months of 1939 Shanghai had to import 8988 tons only of foreign rice; for the first ten months of this year her foreign imports have been, in round figures, 328,000 tons, representing a basic expenditure as recorded in the Customs returns of approximately U.S.\$11,000,000. During 1939 Shanghai's supplies from domestic crops amounted to 244,000 tons. This year the amount will not be more than 36,000 tons.

IN THE TRADE, estimates are that Shanghai now has rice stocks sufficient to cover three months consumption, or, say 72,000 tons. Another rough and ready calculation is the following:—

	Tons
Imports of foreign rice (10 m'ths)	327,955
Average domestic supplies (10 m'ths)	30,000
Total	357,955
Average consumption (10 m'ths)	240,000
Balance	117,955

Of course, trade estimates are based on market supplies, and do not take into consideration the small stocks held by most households. It will be seen, therefore, there is no cause for alarm on account of rice stocks being insufficient, and no fear of any immediate shortage. Admittedly the hinterland is becoming denuded of rice, but even should the local

supply, now reckoned to be 3000 tons a month dry up completely. It would merely be necessary to purchase this additional amount from abroad. That is the worst that can happen.

IT IS DOUBTFUL whether 3000 tons of domestic rice a month, as against a demand of 24,000 tons monthly, would materially affect market prices, even if the domestic rice could be obtained for nothing. The ruling price would necessarily be fixed by the costs of the imported commodity. But all investigations suggest that the trade in rice which, as we have stated is obtainable for \$35 in Wuhu and is sold at over \$80 in Shanghai, brings no great profit to those engaged in it.

This rice finds its way to Shanghai by three different methods. It may come normally under army permit, but these permits are rarely issued and the amounts involved are so negligible that they are not worth taking into consideration. The bulk of the rice comes by what is known to the rice dealers as the "squeeze" route, and the remainder is smuggled.

On the "squeeze" route a good deal of money has to be paid out in what are euphemistically known as "local taxes" and it is calculated that about 20% of the rice is confiscated to satisfy the appetites of soldiers in the neighborhood. On the small quantities of smuggled rice which successfully get through, there should be a fairly substantial margin of profit, but it must be remembered that smugglers run the risk of being shot.

IN ORDER to understand fully the rice problem as briefly outlined above, it is necessary to take a glance at the position in Japan, where the failure of the rice crop has been the subject of much comment. The Government, after some preliminary optimistic estimates, have had to admit that this season's crops will yield only 302,350,000 bushels, which is a re-

duction of 42,250,000 bushels compared with last year. People are consequently being exhorted to "eat less rice" and to substitute other foods. Some of the papers have openly criticised the Government for their initial misleading reports of the rice position, and deride the official explanation that the failure in the crops has been due to "unfavorable weather and insect pests." The facts of the case are unquestionably that there has been a scarcity of labor, owing to the mobilization of a million farmers, and insufficient supply of fertilizers due to "planned economy," to which must be added the new price regulations which made the growing of rice an unprofitable business.

Japan this year is short by about 1.5 million tons of rice. If she had to buy this in foreign markets it would mean the expenditure of about U.S.\$44 millions, and foreign exchange is scarce. Therefore the policy is to get as much as possible from the so-called yen bloc. As shown, it is estimated that Japan is obtaining about half her needs in this way, and the result is scarcity, high prices, and starvation in Central China, with Shanghai probably suffering more severely than any other large center.

REFERENCE has been made previously to Japan's expressed desire, in the Sino-Japanese treaty, for economic co-operation, which is interpreted as "ministering to each other's needs in accordance with the principles of equality and reciprocity." *Finance & Commerce* is not concerned primarily with politics but with economic facts, and in recent articles we have shown how the principles of equality and reciprocity have been interpreted in terms of cotton and silk.

The foregoing article explains how the system works in regard to rice. The only needs which appear to have been taken into consideration so far have been the needs of Japan.

Rice Market Restrictions Enforced Yesterday

**All Quotations Decline As Merchants Sell Big
Stocks With Native Rice Being Smuggled In
Despite Japanese Limitations**

Marking the first time in the history of rice trading in Shanghai, limitations and restrictions formulated by the Rice Price Fixing Committee on transactions involving the staple product came into force yesterday, with rice dealers lowering their prices considerably during the morning market session until first grade Saigon stock fell below the \$85.50 quota while native first grade rice descended by some \$1.50 per picul.

As many rice dealers contemplated with displeasure the necessity of paying a \$5 deposit per bag of rice bought and compliance with a five-day delivery period prescribed, many attempts to transact business on the "Black Bourse" by accepting substantial bribes from purchasers for every bag of rice sold were noted. This, however, did not last long, as many other merchants were continuing to offer their stocks for sale at the fixed prices.

Meanwhile, according to reliable sources, large stocks of native rice entered the city a few days ago, smuggled by peasants despite the Japanese rice restriction regulations making local deals on native rice increase at lower quotations.

Still uncertain was the position of Indo-China officials in regard to the recently announced prohibition on export of first grade Saigon stock from the colony. The recent arrival of the Indo-China Economic and Finance Mission to Japan here was widely discussed by local rice merchants, as it was known that one of the chapters in the scheduled discussions to be held by the mission in Japan, will be the question of a trade agreement on Japan imports of Indo-China stocks of Saigon first grade rice.

Informed circles pointed out that the agreement might further affect prices in Shanghai of Saigon rice, as Japan imports from Indo-China may mean insufficiency of stocks to be sent here as Japan, at the present moment, is becoming a heavy importer of rice from both China and foreign countries.

THE RICE PROBLEM : SOME VAGUE RESOLUTIONS

The resolutions passed at the meeting held yesterday by the S.M.C., at which were present representatives of various rice trade bodies, to find a solution of the rice problem, are very vague. It is recalled that on this day last year the S.M.C. and the F.M.C. issued a joint proclamation suppressing speculation in rice. A year has now elapsed and measures to improve the situation are still lacking. Last year the price limit of Chinese rice was fixed at \$40; to-day the price limit of first quality Saigon rice has been fixed at \$87. One cannot help feeling astounded when making this comparison.

The first resolution passed at yesterday's meeting dealt with the erection of public granaries. Although we do not regard the establishment of public granaries as an urgent matter, nevertheless we are not opposed to it.

The second resolution dealt with the placing of a further order for 100,000 bags of foreign rice for the purpose of increasing stocks prior to an investigation of stocks is made. We do not understand this. Naturally it is a good thing, if we have money, to place orders for more foreign rice, but the investigation into stocks can be started now. Why should this work be postponed until the arrival of the ordered rice?

The third resolution dealt with the prohibition of speculative transactions. Naturally it will do much good if this resolution is strictly enforced.

As regards the adjustment of the price of foreign rice, its value is nil in the eyes of the poor class of people.

In a word, yesterday's meeting was not satisfactory and we predict that the rice situation can get no relief through it.

"Obey the decisions of the authorities"

In difficult questions, fundamental or temporary measures can be devised for their solution. At critical stages, both fundamental and temporary measures could be adopted. Members of the local rice trade had a meeting with the authorities of the two Foreign Settlements yesterday and both fundamental and temporary measures, such as the facilitating of procuring of supplies of rice and the prevention of hoarding, were brought up for discussion.

Let us deal first with the prevention of hoarding of rice. The persons engaged in hoarding and manipulation with the object of controlling the market care only for personal gain; they have no consideration for the welfare of the community. It is to be feared that the term "rice worms" is not adequate enough to show up their treachery and wickedness. In order to suppress their

P. T. O.

afternoon Translation

activities, a strict investigation into the stocks of rice must be made. The rice of persons who are engaged in hoarding should be contributed to the cheap sales of rice or be sold off at a price which will give them a legal profit. The rice worms may be very bold but if such measures be enforced strictly, they will become afraid.

One effect of the meeting has been the eradication of the so-called "secret rooms" discovered in the market. These "secret rooms" were places where the rice worms made their deals in secret. This was a firm and resolute action taken by the meeting.

It is certain that these decisions will be enforced and strict investigations will also be made. In dealing with rice worms, there must be no leniency, otherwise they will become active again after a lapse of time. The wise authorities should pay attention to this. With regard to the point that severe punishment will be imposed according to law upon those who are found to have sold rice in excess of the prices fixed by the S.M.C., we hope that the rice worms will quickly come to their senses and refrain from violating the limit fixed.

National Herald (comment). 1-

"Don't Cause Disappointment"

The people were very happy upon hearing that the two Settlement authorities had invited the leaders of the rice trade to a discussion of measures to stabilize the price of rice, as they believe that a thorough solution would be found. However, after reading the reports of the meeting issued by the S.M.C. Publicity Department, we were greatly disappointed.

(1) Only the principle of establishing a public granary for the storing of rice was passed. The rules for its establishment will be drafted by two representatives of the two labour unions with Mr. Yu Ya-ching. It was not decided whether the suggestion of joint purchases of rice, public storing and public sales should be adopted.

(2) Stabilization of the rice prices is to be effected by the payment of \$5 per bag in advance, but it is not known whether this will have any effect.

(3) The price limit does not include lawful profits and yesterday's market price was taken as the highest price. Thus, yesterday's market price, which was raised by the traitorous merchants, has become the legal price at the present time. What is to be said of this?

(4) No satisfactory measures were devised to collect stocks. It is said that this will be drafted by separate organizations.

We are disappointed. We shall have to trust these separate organizations. It is hoped that Mr. Yu Ya-ching and the two representatives of the two labour unions will devise ways and means to relieve the citizens and continue the public sales in order to prevent the traitorous merchants from taking advantage of the situation. Do not cause disappointment to the people.

Cooperative Buying Of Rice Suggested

Formation Of \$20,000,000 Company To Purchase,
Purchases, Regulate Prices Proposed
By Shanghai Grain Merchants

With the harvest time of the year approaching and a loss of from \$6,000,000 to \$7,000,000 suffered since February, local rice dealers are contemplating the co-operative purchase of the grain, from China and from growing centers abroad, and regulating of prices.

Shanghai dealers total around 1000, and the story of the big losses some of them were suffering was told recently

in the Shanghai Evening Post. Description of the new proposal to meet the present emergency as well as tentative regulations, is given in a circular which is now being circulated to all dealers, as follows:

By MR. KWEI YEN-FANG
Memorandum Issued

The proposal for the organization of a Shanghai Rice Purchasing Union, Ltd., represents an attempt to solve the difficult rice situation, which has been prevailing for the past 12 months and which, it is to be feared, will be with us and possibly become worse, as long as the war lasts. The causes that bring about this situation are well-known.

The hardest time is now approaching. The months between May and August, when the last crop will be exhausted and the new crop will yet be unready, will cause the severest suffering to the people. The darkest period in the history of Shanghai will soon be with us, if some concrete measure is not promptly taken while there is still time to do something.

Salmon Rice
Since last winter Mr. Yu Yaching and other leaders have formed a committee to buy Salmon rice from French Indo-China, since efforts to bring native rice from the surrounding districts have failed. The aim is to keep up a steady supply of rice, thus preventing further soaring of price in the rice market.

Also during the Chinese New Year, under the leadership of Mr. Yu, cheap rice sale for the benefit of the poorer class was conducted for some months.

Greater Effort
Now the situation calls for a greater and more united effort of the people of whole Shanghai. The support of all rice dealers and residents of both the International Settlement and French Concession, as well as the two Municipal authorities is necessary. As the peace and order of the city will be involved, it is earnestly hoped that the two Municipal Councils will take active leadership in this movement.

Purchasing Union
I. NAME: This body, representing the rice dealers (including rice 'hong' and rice 'hao') trading in rice in the International Settlement and French Concession and holding licenses from the two Municipal authorities, shall be called the Shanghai Rice Purchasing Union, Ltd.

II. FUNCTIONS. The functions of the Union shall be to act on behalf of the constituent rice dealers as follows:

(1) To purchase native or foreign rice;
(2) To regulate price of rice with a view to decreasing the hardships of the laboring class caused by high fluctuations pre-

vailing at this time;

(3) To sell rice at prices determined by the Union.

In carrying out the aforesaid functions, the Union shall be subject to the direction and supervision of the two Municipal authorities.

III. CAPITAL: The Union shall have a capital of \$20,000,000. Chinese National Currency, to be divided into 20,000 shares of \$1,000 each.

The share certificates shall be in denominations of \$1000, \$10,000 and \$100,000, shall be registered and shall bear signatures and seals of six directors of the Union. The Union shall be of a limited liability.

IV. INTERESTS: All shares shall yield a guaranteed interest at the rate of 8 percent per annum.

V. MEMBERSHIP: All rice dealers (including rice 'hong' and rice 'hao') defined in Art. I shall hold shares and be members of the Union.

Those refusing to be members shall be ordered by the two Municipal authorities to join the Union within a fixed date, failing which their trade licenses shall be taken away from them and no members in the Union shall have anything to do with them.

VI. RICE PURCHASES: The Union shall have the sole and exclusive right to purchase native or foreign rice.

Shipments of native rice, whether ordered previous to the formation of the Union by members or agents shall on arrival in Shanghai be sold to the Union at a price to be fixed by the Union.

With the exception of factories, schools, colleges, commercial firms and other bodies, which have designated for their own consumption, members who have placed orders for such foreign rice shall sell their commodity to the Union at a price to be fixed by the Union. All future orders for rice shall be no matter from whatever parties shall be handled through the Union.

Price Fixing
VII. FIXING PRICE: The Union shall have the right to fix the price of rice according to its cost and to regulate all purchases and sales to be made according to that price.

In fixing the price, the Union shall take into consideration the three factors namely: (1) quality (2) cost price, and (3) a marginal profit. Only a nominal amount for profit shall be assessed on the cheap quality rice, this being done for the benefit of the laboring class. For example: if a profit of \$4 is allowed on one picul of first grade rice only \$2 or even \$1, or 50 cents is to be allowed on second or third grade rice.

VIII. SALES AGENTS: The amount of rice that may be apportioned to the rice dealers

members of the Union acting as sales agents of the Union for sale in their stores shall be based upon the following factors, namely:

(1) the amount of shares held by the members; and

(2) the amount of business carried on by the members before their participation in the Union.

Profiteering On Rice

RICE, a Hungjiao district resident, reminds us, can still be purchased in his area at a saving of not less than \$4.50 a picul as compared with the rates prevailing just inside the barriers of Settlement and Concession.

The difference represents what some might call "tax" and others, less charitable, "squeeze", going to people who are willing and anxious to fill their pockets at the expense of the element of our community least able to bear such a burden.

There have been some remarks from the Japanese to the effect that they underwent sacrifice in allowing rice to come into Shanghai, due to the rice shortage in their own country.

We suspect that the fortitude of the controlling forces must be considerably strengthened by the amount of profiteering so obviously in progress.

PEOPLE'S FOOD READJUSTMENT ASSOCIATION ADDRESSES
OPEN LETTER TO LOCAL RESIDENTS.

The Shanghai People's Food Readjustment Association on January 24 issued an open letter addressed to local residents containing the following five points :-

- (1) For certain reasons, there is a possibility for a further increase in the price of rice in Shanghai. It is to be hoped that people in various walks of life will purchase large quantities of rice as soon as possible so that fears of a shortage may not arise again in future.
- (2) Factories, stores, schools and other public bodies and organizations should advance money to their employees for the purchase of rice that may be kept for over six months (Saigon rice can be kept in good condition for two years) and the money thus advanced may be deducted from the wages of the employees. This will not cause much loss to the managements, but it will calm the minds of their employees at their work. Two-thirds of the population in Shanghai are workers. If they are saved all worry over food supplies for a period of six months, the question of food supplies for the whole of Shanghai will be settled.
- (3) The Association approved that people in various walks of life collect the money and place joint orders for rice from abroad. People should refrain from purchasing large quantities of rice in Shanghai for this will reduce stocks in this locality, thereby seriously affecting the livelihood of poor people.
- (4) People should realize the gravity of the question of food supplies for the future and adopt measures for the joint purchase of rice.
- (5) The following questions and answers are published to enable the people to understand the meaning of the joint purchase of rice :-

Q: Why is it necessary to order foreign rice?

A: For certain reasons, the sources of supplies of Chinese rice cannot be depended upon. Therefore it is necessary to order foreign rice.

Q: What is the price of foreign rice per "zar"?

A: The Association has ordered two lots of Saigon rice. The first order is for 6,000 bags at \$43.83 and the second order is for 10,000 bags at \$44.83. Roughly, one bag of rice weighs one "zar" and a quarter.

Q: According to present conditions, is the price of foreign rice cheap?

A: The rice stocks in Shanghai are limited and trouble will arise as soon as these stocks are sold. So, local people should lose no time in purchasing foreign rice as a precaution against trouble.

Q: Does the People's Food Readjustment Association collect any fees from people ordering rice?

FILE

January 25, 1940.

Morning Translation.

A: Not a single cash is collected. The Association is working for the people free of charge. The accounts are open to the public and the rice ordered is distributed among people at the original price. Members and employees of the Association draw no pay. Two or three paid clerks have been engaged. The Association can carry on for several months and there is no need to ask financial assistance from the public. A sum of \$1,500 has been contributed by members of the Association.

Q: Why does the People's Food Readjustment Association desire to collect funds?

A: The Association must have a certain amount of funds on hand in order to attain its object of improving the rice situation. For instance, when the price of rice is low, it may buy rice with the funds, and when the price goes up, it sells the rice. This may stabilize the rice price. If the quantities of rice ordered by the public are not large and should the price register a drop at this time and the foreign exchange rate improves, the Association may purchase rice if it is in possession of funds.

All this shows the importance of having funds on hand. The public should raise funds for the Association. The money will be repaid according to the regulations.

Three Piculs of Rice Stolen by Mob

Wheelbarrows Attacked by 40 Chinese ; Two Arrested

Yet another minor rice riot was reported yesterday afternoon, when a mob of about 40 male and female Chinese attacked several wheelbarrows with rice and stole about three piculs of the valuable cereal. An alarm raised by the coolies attracted the attention of policemen and resulted in the arrest of two persons, a man and a woman, who will face the First Special District Court this morning.

According to investigations conducted by detectives from Central station, several wheelbarrows of rice were detached to a Chinese restaurant at 47 Shantung Rd. While proceeding along Foochow Road, just a few yards from Shantung Road, the caravan of wheelbarrows was attacked by the mob.

The leader, it was learned, was armed with a safety razor blade and with this instrument he cut three bags. Rice poured out and Chinese fought to get some of it, filling their pockets, pieces of cloth and baskets with the cereal.

The attacked wheelbarrow owner immediately shouted for help and his call was answered by policemen, who rushed to the scene. Seeing the approach of constables, the mob scattered, some making their getaway by running into alleyways in the vicinity, others along Foochow Road and intersecting streets. The policemen were, however, able to arrest the ringleader and the woman. The former was found in possession of the safety razor blade.

Taken to the station, they confessed to having participated in the attack, blaming the very high cost of rice for their crime.

Rice Cargo Stormed By Hungry Mob

Two Arrested With Razor Blade Used In Cutting Open Bags Of Rice

Demonstrating the effects of the worsening rice situation upon the lower crust of the Chinese populace here, three wheelbarrows laden with rice were mobbed yesterday afternoon by a crowd of 40 hungry people just within the shadow of the Headquarters of the Shanghai Municipal Police, on Foochow Road.

One male and one female Chinese were subsequently arrested and one razor blade used in cutting the bags of rice open was seized by officers from Central Station.

Investigation conducted by detectives on the case revealed that at about 2.30 p.m. yesterday, a large quantity of rice was being conveyed in three wheelbarrows to a Chinese restaurant at 47 Shantung Road. As the cargo reached a spot on Foochow Road, near Shantung Road, about 40 men and women, a typical conglomeration of beggars and waifs who live in the streets, stormed the wheelbarrows.

One of them was observed to have produced a sharp razor blade and quickly cut openings in three of the bags, whereupon each and everyone of the mob helped himself to the indispensable cereal. Helpless in the face of imminent violence, the coolies pushing the wheelbarrows dashed to Central Station, only half a block away, and reported the riot.

A party of detectives and uniformed men subsequently rushed to the spot and scattered the marauders, arresting one male and one female who will be accordingly charged in the First Special District Court at 10 a.m. today. The razor blade will be presented as an exhibit.

At 2.10p.m. 3/11/40, Informant Kung Tung G (龔永祺), Senior assistant of a rice shop located at 1954 Bubbling Well Road, reported to the station that at about 1.50 p.m. even date, his apprentice Kuo Chia Wah (高家華) age 18, was held up by some 20 female Chinese on Sinna Road near Hart Road and relieved him of 4 sacks of rice value \$120.00.

Inquiries by detectives revealed that the apprentice was told to deliver 4 sacks of rice to a customer on Gordon Road. The rice was loaded on a hand trolley and whilst he was proceeding along Sinna Road with the handtrolley, several female Chinese came from Hart Road and stopped him. Two of them then held him up while the remainder, some 20 in number, cut open the sacks with small pocket knives which they were carrying and stole the contents. The two females released their hold when all the rice had been taken away by their accomplices. All the females were seen carrying away the rice with bags or tin containers and it appears that they are a gang of organised rice thieves.

The victim did not raise an alarm and he returned to his shop after being robbed. Scene of offence is located on North of Sinna Road near Hart Road. Nearest policemen in the vicinity at the time were C.P.C.s 2748 and 2749, they were at Sinna Road extension, approximately 100 yards away from the scene.

I beg to report that at 7 a.m. on 17.7.40 I was detailed to patrol No.2 Beat, Section 1. At about 8.15 a.m. when I was proceeding North along Gordon Road towards Sinza Road, a foreign tram Inspector approached me and talked to me in English. As I do not understand English, I asked him in Chinese if he wanted me in any accident or fighting case. He shook his head but then led me to the corner of Avenue & Majestic Roads where I saw a crowd of on-lookers gathering. I also saw a wheel-barrow coolie sweeping rice from the ground while another coolie seizing a boy age 13-14 years. I then realized that a looting of rice must have been occurred. After I had cleared the crowd from the road, I took over the arrested boy and brought him to the Station together with the wheel-barrow coolie with his remaining rice.

THEFT OF RICE ON GORDON ROAD

At 7 a.m. yesterday, a case of theft of rice occurred at the corner of Gordon and Avenue Roads. Some 30 or 40 poor women and children who had gathered on the streets, each carrying tin buckets etc., stole a quantity of rice from a wheelbarrow laden with rice. Seeing this, the wheelbarrow coolie cried for help and assaulted the women and children with a cloth belt which he uses in pushing the vehicle. Notwithstanding this, the crowd became larger and it was impossible for the coolie to stop them. When post duty policemen reached the scene, over half of the four "sar" of rice on the vehicle had been removed.

With reference to the attached letter purporting to have emanated from the "Settlement and French Concession Citizens' Association for Dealing with Unscrupulous Merchants" (上海法租界市民聯合會) which was received by the Shanghai Municipal Council on June 24, 1940, discreet enquiries have failed to ascertain any particulars of such an organization.

An examination of the letter shows that the letter was posted at the General Post Office, North Szechuen Road, at 11 p.m. June 21, 1940, and is written on two sheets of ruled paper torn from an exercise book. The envelope is an ordinary Chinese style one.

Mr. May Yoh (梅瑛), Clerical Assistant, Crime Branch Headquarters, perused the composition and writing but found no similarity with letters in his office.

It is considered from the composition that the letter is the work of one individual who allows a feeling to run through the letter and is hard hit by the recent high price of rice. If the letter was written by an organized party, it is thought that the letter would have been written on letter head paper or paper of better quality.

Price of Rice : Threat of Disturbance.

Since the beginning of this year the prices of all commodities, especially food stuffs, have rapidly risen. Though Price Control Committees have been formed, we regret that they have only the power to control petty dealers. Attention is given to the very insistent demands from residents to force down the prices of foodstuffs, and no suitable step has been taken to bring this about. The price of rice has now risen to more than 70 per picul. How can the poor people, who buy our rice from day to day, continue to exist? Not only do we find it difficult to earn out a day's existence as to pass a whole year, but to provide for food for a meal is an equally difficult problem. Our hardships cannot be fully described. The members of the Price Control Committees seem not to be doing their duties properly. Have they achieved any success in forcing down prices?

Driven by hunger, we are not so called to take desperate action. We have formed ourselves into a body whose sole object is to deprive the various unscrupulous merchants of all their stocks of foodstuffs stored in different godowns, shops and private godowns. Our slogan is: "When there is any rice, it shall be shared by all; when the rice is exhausted, the hardship must be borne equally by all".

Fortunately our organization is receiving the support of citizens, and a large number of persons have joined us.

the last few days our membership enrolment has been down to 1,550 persons. I presume that you will be greatly surprised by this state of affairs and will probably not believe it.

I have been proceeding smoothly and quickly about this business; I need only some hundred permanent members to harness the people who, whether with willing faces or heavy loads, will in large numbers at once join the cause. Our orders will be carried out with lightning speed, and although our members are scattered over wide areas, and engaged in various vocations, they will respond to our call within a few hours.

The aims of the Association are given as follows:

Purpose: To secure the establishment of a new social system for the benefit of the people.

Object: To commandeer the services of unscrupulous dealers in foolstuffs.

Number of members: 30,000 persons.

Organization: Members are organized on a military footing. They will form one or more battalions of battalions, each battalion consisting of 10 companies, and each company consisting of 10 sub-companies, each sub-company consisting of 10 platoons, each platoon consisting of 10 sub-platoons, and each sub-platoon consisting of 40 members, plus 20 pickets and 8 reserve members. We shall have a staff headquarters, accounts office and intelligence corps.

With such a well organized body of men we shall be able to cope with any situation, and to match ourselves with the combined strength of policemen, and detectives who serve as citizens for profiters.

Gentlemen. My address this day to you, is firstly, because we wish to beg you to take immediate steps to reduce the prices of commodities, and secondly, because we wish to notify and warn you in advance. Should you continue to act in your own interest and take no measures to lower prices and relieve ^{the} distress of the poor, we shall be driven to desperate acts, though our

lives may be forfeited or we be imprisoned. As our regiment is brave, there is no doubt but that we shall achieve our object. Being hungry we cannot do otherwise than act. There is nothing that we fear. What do we care for law when we are starving to death? We will not commit murder or arson; we are hungry and compelled to risk our lives. This is only the natural result of the doings of those hard-hearted and unscrupulous dealers who commit bloodless murder. We are driven to this dangerous pass, and fear nothing. We have committed no crime; but we want the blood of those unscrupulous dealers who commit bloodless murders. We think perhaps you may even approve our actions, sympathize with us and pardon us. Please wait and see. Please watch for the outbreak.

Concession Citizens' Association for
dealing with unscrupulous merchants.

(Any outstanding or peculiar feature to be commented on by investigating officers).

At 10.52 a.m. 23/2/40 a telephone message was received from the Yuen Boong (阮豐) Rice Shop, No. 106-B Linching Road, to the effect that an unsuccessful attempt had been made to steal a sack of rice from the shop by two Kompo coolies who had made good their escape.

Enquiries however, ascertained the following.

At about 10.40 a.m. 23/2/40 two male Chinese of the coolie class attempted to steal a sack of rice that was stacked in close proximity to the open front door of the shop. Their efforts were frustrated by the three shop assistants named Dong Gung Sing (董光生), Dong Foh Gung (董福生) and See Pah Ying (謝伯英) respectively and the thieves made good their escape.

About 5 minutes later a crowd of about 30 male Chinese of the coolie class gathered outside the shop and started shouting "Steal Rice" (Tsang Mei (搶米)), and before the shop assistants could close the shop door the mob rushed into the premises and pulled down a stack of rice situated near the shop door. The shop assistants tried to oppose the thieves but they were easily overcome and unable to prevent the mob from carrying away 14 sacks of rice.

The thieves were in the shop for about five minutes and most of them decamped into an alleyway leading to Tsu Ka Ba Road, after which the shop assistants closed the shop, and informed the station.

Chinese running across a piece of vacant ground with a sack of rice on his shoulder. The detective called upon the man to stop but he dropped the rice and made good his escape. The sack of rice was later identified by the complt's assistant Dong Foh Sung (董福生) as having been stolen from the complt's shop.

The complt's assistants state that they have never seen the thieves before and are of the opinion that they are not residents of the neighbourhood. Persons residing in the vicinity of the complt's shop who witnessed the occurrence, when questioned expressed a similar opinion.

Further enquiries were made in Tsu Ka Ba Road but no information was elicited that would reveal the identity of the culprits and/or lead to the recovery of the rice.

The complt has disregarded the Police advise given to him on the 16/2/40, when he was warned by C.D. 3.108 of the recent looting of rice shops in this area and advised to secure his shop door.

All rice shops in this district have been informed of this case and warned again to take precautions.

Made by. D.S.I. Liao Chung Chien Forwarded by D.I. Crawford

The rice shops operating in the Zao Ka Doo, Western District, O.O.L. have been selling rice through half-open doors or through small holes in the shop shutters in view of the prevalence of looting in that area.

A "Shanghai Municipality Western District Rice Merchants' Trade Association" (滬西區米商同業公會), was recently formed at 93 Brennan Road, O.O.L. with Wong Tse Woo (黃致和), ex-Commander of Zao Ka Doo Merchants' Volunteer Corps (defunct) and a rice dealer, as Chairman. Under his auspices a meeting was held in the office between 2 p.m. and 4 p.m., January 11, 1940 when some 30 rice shop owners attended. The following resolutions were discussed and passed:-

1. That an appeal be sent to the officer-in-charge of the Western District Police Bureau for police protection to the rice shops in Zao Ka Doo.
2. That the rice shops continue their business through half-open doors until an assurance of protection from the Western District Police Bureau is obtained.
3. That the rice shops be warned to refrain from hoarding in order to avoid a rise in the price of the cereal.

GROUPS OF BEGGARS RAID RICE SHOPS

Demand And Attempt

Supplies For Poor

Rice shops in the Looan and Sima Police districts received a scare yesterday morning when large parties of beggars commenced approaching them for donations of rice. In some cases the beggars became threatening, making demands and even going as far as attempting to steal rice and rice cakes.

Police were called upon for assistance and cleared away the mobs of beggars, detaining several men for a period and then releasing them.

At a conference held at 4 o'clock yesterday afternoon, the Shanghai Staple Food Regulation Committee passed one of its most important resolutions. This was the establishment of a "Frumentation Commission" (Ping tiao wei yuan hui), whose task will be to distribute large quantities of rice to the destitute people of Shanghai, at prices well below the present market levels.

More than 30 Shanghai notables, representing almost all the major trades of local business including banking, shipping, and other interests, were present at the meeting. Sixteen men, headed by Mr. Yu Yaching, were nominated as the organizing committee of the new commission. It was also decided to raise a fund of \$1,000,000 as the initial capital of the enterprise.

REPORT OF POLICE INVESTIGATIONS.

The following is the statement of Wong Zee Sz.
 native of Soochow taken by Mr. C.D.
Ch. Rd. Sta. on the 18-12-39 translated Clerk Tan.
 at and

At about 10.50a.m. on the 16-12-39, my husband Wong Sz Kung was arrested by Police in connection with a riot at the San Men Rice Shop, 125 Chengtu Road and subsequently escorted to Police Station.

At about 10a.m. on the 18-12-39, while making a purchase from a sauce shop on Chengtu Road, I heard pedestrians talk about the death of my husband that he had succumbed to his injuries received in the riot.

However, at 12 noon 18-12-39, my husband came back home. I told him what I heard it rumoured that he had died from the injuries in the riot. He then told me that after arrest, he was taken to Chengtu Road Police Station and on 18-12-39 he was arraigned before the Court and sentenced to 3 months' imprisonment suspended for 2 years. He further told me that in the course of trial, he was warned by the presiding judge not to create any further disturbance. I now realize that the above rumour concerning the death of my husband was absolutely groundless. I do not know where it originated from.

At about 3p.m. same date, we were summoned to Chengtu Road Police Station by detectives to whom we confirmed the fact that the above rumour had been in circulation and now further realized that same was false.

Rice Situation - Central District.

Sir,

The rice situation in the Central District remained quite normal during the twenty-four hours ending December 17.

Although no serious disturbances took place and no attempt was made to plunder any of the rice shops, it is, however, believed that one mob did filter into the district in a surreptitious manner during the afternoon for this purpose.

At 3.50p.m. C.C.R. reported that a large crowd had assembled in the vicinity of the Main Tak Rice Shop (新泰米店), 135 Ningpo Road.

The mob consisted of Kampo females and young children and several males of the loafer class.

All were reported to have carried sacks and other receptacles suitable for the carrying of rice.

These people are definitely not Central residents and are believed to have come from the Western Area.

They made attempt to rush the shop and stood in a group some twenty or thirty yards away.

Vigilance by Police on duty in the vicinity and the subsequent arrival of reinforcements apparently discouraged the mob who broke up and are reported to

have made their way into Louisa District.

Louisa was accordingly informed of the presence of these people.

Mobile squads under S.I. Watson and the undersigned subsequently patrolled the district and guards at all rice shops were doubled.

All shops in this district appear to be carrying large stocks of rice.

Rice Riots in the Peetee Road District on 16.12.39.

At 9 a.m. 16.12.39. in response to a telephone message from the Wan Kong (萬康) Rice Shop, 1395-7 Ferry Road, to the effect that a riot was in progress at the shop, a party of Police under Inspector Watson, Officer in charge, immediately turned out. On arrival of Police, the rioters had already been dispersed and most of them had escaped with a large number sacks of rice, stolen from the shop. Police party, however, was able to overtake a part of the offenders, effecting the arrest of sixteen male Chinese, four females and one boy and recovery of a quantity of rice, approximately 5 sacks from them.

The owner of the shop named Wong Ziang Ching (吳祥慶), estimated that a total loss of 30 sacks of rice valued at \$600.00 was suffered as the result of the riot. There were, however, no casualties.

A separate list of the description of the arrested persons is attached.

Six other rice shops were broken into by the rioters throughout the day and owing to the prompt arrival of Police party at the scene of each riot on receipt of information, the mob dispersed, having no opportunity to loot anything from the shop. In one of these attempts, a male Chinese named Wong Teh Hsee (汪德喜), aged 41, native of Anhwei, S/coolie residing straw hut, Yeh S Loong, off Ferry Road, who was attempting to break into a rice shop with a sharp iron hook, which was found to be in his possession at the time of his arrest, was arrested by Police.

The following are the shops which had been broken into by the rioters and nothing was stolen from the shops:

Enquiries by D.S. Taylor and C.D.C. 26.

Owing to the tense situation prevailing, due to the excessive price of rice and other commodities, precautionary measures were adopted with a view to preventing breaches of the peace. C.P.C.s were posted at all rice shops in the district with instructions to immediately inform the station, where reserves were standing-by, in the event of large crowds collecting in the vicinity of rice shops and refusing to disperse, when ordered to do so by the officers on duty at these places.

At 10.33 a.m. 16-12-39 telephone message (St. Tel. Box 5) was received from C.P.S. 491, on behalf of C.P.C. 976 reporting that a large crowd of male and female Chinese had collected in the vicinity of the Ziang Zung (江江) Rice shop, 12-14 Chungking Road. The C.P.C. had ordered the loiterers to disperse but they moved from one place to another and remained. He further reported that the crowd was starting to get out of hand and he expected a disturbance.

S.I.s Moffat and Wilkinson, Inspector Yao Chia Kwei, D.S. Taylor and party of Uniform and detectives immediately proceeded to the scene and dispersed the mob, without any untoward incident. The shop was instructed to put up their wooden shutters and to make transactions through the small grille window. Police were reinforced at this place and the party left to visit other rice shops in the district.

Whilst returning to the station, it was observed

that there were a large number of idlers on Chengtu Road in the vicinity of Taku Road, ostensibly watching the erection of Shanghai Power Co. transmission wires and poles; but as this crowd was collected not far from a rice shop they were ordered to disperse, an extra C.P.S. was posted on the San Meu (2 1/2) Rice shop, 125-7 Chengtu Road and the proprietor was advised to put up his wooden shutters. The Police party returned to the station.

Meanwhile, Inspector Lees and S.I. Wilkinson had been making a tour of rice-shops in the district on the station motor-cycle and were coming along Chengtu Road from Taku Road when they observed a large crowd of over a hundred persons making a concerted rush on the San Meu Rice-shop (who had ignored Police advice to close their shutters). The Officer i/c and S.I. Wilkinson immediately went to the assistance of the Chinese Police on duty and a call was put through to the station for reinforcements.

This call was received at 10.56 a.m. 16-12-39, S.I. Moffat, D.S. Taylor and party immediately responded. The 1st accused Wong Chien Sz was arrested in the Fong Ka Zah (方家宅) alleyway opposite the rice shop in the act of concealing a bag of flour under some sacks of lime. kinson in the rice shop actually in the act of carrying
out sacks of flour. The 4th and 5th accused were arrest-
ed in the vicinity and both were covered with flour all
over their clothes showing that they had participated
in the riot.

After the crowd had been dispersed and order res-
tored the San Mei rice shop checked their stocks and
found a loss of 40 bags of flour each weighing 49 lbs
and to the total value of \$400.00, had been forcibly re-
moved from the shop,

It was noticed that during this raid, there were
not a few students mingling with the crowd and one
student Fee Kyi Sung (^{H K}₁₂), 27, Shanghai, M/student,
San woo (²₁₂) University Night School, Jinkee Road,
residing at 10/47 Chengtu Road was arrested and brought
to the station for enquiries. He was later released,
as there was not sufficient evidence to establish defi-
nite connection with the riot.

At 11.20 a.m. 16-12-39 telephone message was re-
ceived from C.P.C. 931 reporting that a menacing crowd
was collecting in the vicinity of the Yue Sung (¹⁵₁₂)

Rice Riots Continue In Force Yesterday Despite Precautions Of Police

Investigations Reveal Disturbances Caused By Hooligans Rather Than Hungry Mobs; Dealer Wounded By Gunman; Over 20 Cases Reported

DECISION TO REDUCE PRICES OF RICE MADE AT IMPORTANT CONFERENCE

Despite the fact that strong precautions were being taken by the police authorities in the International Settlement and the French Concession for the protection of the rice hongs, about 20 riots were staged yesterday morning and afternoon in the two foreign areas. Police turned out in most of the cases to disperse the crowds and a number of arrests were made in several instances.

Investigation revealed that in most cases the riots were not staged as the result of people going hungry or crowds being specially organized. In the majority of the cases an argument would start in a rice hong between a customer and the assistants over the price of the staple or the weight given. Crowds would gather around and a number of hooligans, taking advantage of the opportunity, would rush into the store and commence looting.

In most of the incidents the crowds would clear prior to the arrival of the police, after having stolen as much rice as they could possibly carry away. There were also a number of false alarms regarding rice riots, panicky rice shop proprietors calling for police assistance as soon as some customers began to raise their voice.

Dealer Wounded

Mr. Shen Zeng-ven, 65-year-old rice broker, was wounded in the arm by one of two gunmen, who stopped him outside the Foochow Road Market at about 10 o'clock yesterday morning, while he was riding in his private ricksha. Whether the attempted assassination of Mr. Shen has anything to do with the rice riots or the general rice situation or not, has not as yet been definitely established.

Mr. Shen was stopped by two men, one of whom produced a pistol and fired one shot and then ran off with his accomplice. An alarm was raised, but by the time the police arrived the gunmen had already escaped. Mr. Shen was removed to hospital in an ambulance.

21 Arrests

Among the 20 rice riots reported in the Settlement and the French Concession yesterday, arrests were only made in three cases. In the first riot reported in the morning at 1237 Ferry Road, 21 arrests were made by a party of police, who turned out from Foochow Road Police Station. The riot was staged at about 9 o'clock, a large number of bags being carried out from the shop by the looting mob. The police party arrived on the scene in quick order, arrested 21 men and recovered the majority of the stolen rice.

Nine arrests were made in the West End Police Station following an attack on a hong at 308 Kaitung Road at 12 a.m.

Other riots were staged at the following shops:—

10.30 a.m., 125 Chengtu Road.
11.30 a.m., 391 Taku Road.
11.30 a.m., 333 Shanbalkwan Rd.
11.40 a.m., 303 South Hill Road.
11.40 a.m., 65 Taku Road.
1.40 p.m., 65 Connaught Road.
5.07 p.m., 1430 Ferry Road.
One arrest by police, nothing stolen.

Between 3.35 and 5.15 p.m.: at 30 Tsing Road, 555 Myburgh Road, 515 Tsing Road, 190 Tsing Road and 542 Myburgh Road.

Besides, three six more cases of rice looting occurred yesterday in the French Concession. They are listed as follows:—

Tin Tai Rice Store, 128 Hui Bour Street, at 10.10 a.m.
Loss—about 130 piculs of 100 catties each.

At 287 Rue Batard. Loss—about 13 piculs.

Kung Te Rice Store, 90 Albert Road. Loss about 12 piculs.

Teh Yi Tai Rice Store, 68 Avenue Dubail.

At 130 Rue Gaston Kahn.
At the corner of Rue du Marche and Rue Lafayette.

Three Injured
Three rioters sustained lacerations of the scalp following a riot staged in the Chengtu Road Police district yesterday morning. They were injured during the time that the police were dispersing a crowd and making arrests. The three men are being detained at the Police Hospital.

Conference Takes Place
Three representatives were sent by the Shanghai Rice Store Guild and four were sent by the Shanghai Beans and Rice Guild to call on the Deputy Secretary of the S.M.C., Mr. T. K. Ho, at 10 o'clock yesterday morning. They requested the authorities to render adequate protection to legitimate merchants against the looting mobs and also discussed the problem of price control.

It was understood that at this conference, the rice merchants and S.M.C. both agreed to reduce the maximum permissible price of first grade rice from \$45 to \$40, and for next-grade rice from \$38 to \$33, representing a cut of \$5 each.

An executive meeting of the Shanghai Beans and Rice Guild was called later yesterday, at 4 p.m. Two important resolutions were passed. The first was to approve the new lower price limits of \$40 and \$33 as arranged between the Guild's representatives and the S.M.C. The second was to send a formal communication to the S.M.C. asking that adequate protection be accorded to honest and legitimate merchants against libel and mobs.

A proclamation was issued by the guild yesterday to the effect that, beginning from to-day, no first quality white rice shall be allowed to sell in excess of \$40, and that next grade rice shall not be sold in excess of \$33. The proclamation added that imported foreign rice, owing to fluctuations in foreign exchange, will be temporary exempt from this rule.

No Market Yesterday

The rice market on Foochow Road failed to open yesterday as only a few traders were present and there was no offer or bid. Throughout the morning not a single transaction was made. There is no market in the afternoon. Fear of the widespread rice riots was said to be the reason for the absence of transactions.

Ten Riots Staged During Morning; Police Kept Busy

**Mobs Given Incitement
By Proclamation,
Says Dealer**

**\$31,000 WORTH
TAKEN IN DAY**

**SMP Handle Outbreaks
On Outside Roads
In Neat Manner**

While the Japanese conspicuously failed in their promises to bring China rice into Shanghai, riots over the grain which started yesterday afternoon continued this morning, when seven outbreaks were reported in the Settlement and three in the Concession and one rice dealer was wounded in an assassination attempt.

Police were on the alert and nipped more than one outbreak in the bud, but in other cases the rioters got away. In one instance with \$400 of the grain which they removed in rickshas.

Big Loss

No less than 785 sah of rice, worth approximately \$31,000, were taken in the riots yesterday afternoon. Figures are not available for this morning's efforts, but it is believed that they are very much below this amount.

Twenty-one Chinese were arrested in a riot at 1397 Ferry Road today, when police succeeded in regaining most of the stolen grain. One or two other arrests were made during the morning.

Dealer Wounded

Shen Zang-ven, 63 years old rice broker with offices at 145 Chekiang Road, was wounded in the arm at 10 a.m., as he was travelling in his ricksha along Foochow Road, outside the market.

Two men stepped from the sidewalk, fired at Mr. Shen and then made their escape. One bullet hit him in the arm and fractured it. Motive for the attack has not as yet been discovered. First reports that Mr. Shen had been one of the six put "on the spot" by the SMP Thursday were later found to be untrue.

Incited

Despite a letter from the SMC, announced in today's press, to the Shanghai Rice Retail Dealers' Association stating that the Council's proclamation was not directed against members of the association in their legitimate business, but against manipulators and speculators, it is believed in some quarters that the proclamation has served to incite the crowds against rice shops in general. Prices, which have dropped on a "scare" at the proclamation, may rise if dealers refuse to buy more Saigon grain.

Extra police protection has been arranged for rice shops, but in view of the number of the latter, crowds have been able to stage many attacks in the last day or so.

Twenty Cents

Methods of rioters yesterday were noted by their demands for twenty cents' worth of rice, which shops refused, saying that \$1 was the lowest unit. The mob thereupon would storm the shop and help itself.

Attempts of this sort at 501 Great Western Road and at 667 Jessfield Road failed when the SMP arrived in time, made the crowd form up in queues, and instructed the stores to sell each man his twenty cents' worth. Ten Tao police were interested spectators in the art of handling crowds.

Not Instigated

A Shanghai Municipal Council official told the Evening Post this morning that no reports had yet been received that the riots had been "instigated affairs."

It was pointed out that a true motive was lacking for the attacks as since the joint proclamation was issued at the beginning of this week by the SMC and FMC, prices for "gan mee" and Saigon rice had dropped more than \$10.

Price Drop

The day before the joint proclamation was issued, the Council official explained, the price of rice was around \$48 to \$50 per picul, while this morning's prices stood at \$39 per picul, with Saigon rice selling at \$34.50 per picul.

Since December 4, the visible stock of rice in Shanghai had increased from 260,000 piculs to 358,000 piculs. This, the SMC official stated, was largely due to increasing supplies coming from Saigon, where large purchase orders had been placed last month and were now arriving in the city.

Fifty Nabbed In 24 Rice Riots Here

**Cereal Worth \$40,000
Stolen By Looters As
Wave Continues**

Twenty-four rice riots, including three in Frenchtown, occurred yesterday between 9 a.m. and midnight alone, when more than 800 piculs of rice, valued at more than \$40,000, were stolen and more than 50 persons arrested.

With the police doing everything in their power to give ample protection to rice hongs, the riots were quelled in several instances, when police squads forced crowds to form orderly queues outside the shops.

It is a physical impossibility, however, to post extra guards at the entrance to every rice shop, and while added police protection has been given hongs in the more secluded districts of the city, riots continued unabated yesterday.

Disorders Reach Peak

Disorders reached their peak when Mr. Shen Zang-ven, 63, rich rice merchant with offices at 143 Chekiang Road, was wounded in the arm at 10 a.m., when two men opened fire at him as he was traveling along Foochow Road by private ricksha.

Mr. Shen escaped death narrowly. His assassins escaped the law completely. The rice merchant was wounded in the arm, which was fractured by the missile.

Reports charging that Mr. Shen was one of the six men interrogated and warned by the Shanghai Municipal Police on Thursday for violating the terms of the joint anti-manipulation proclamation of the two foreign municipalities were denied yesterday. The motive for the attack, however, was unknown.

Rice riots yesterday were becoming too numerous for the police to keep an immediate, exact record. First known riot and the largest up to 4 p.m. occurred at 9 a.m. at 1397 Ferry Road, where 12 men were arrested. Much of the stolen grain was recovered.

The rioters struck over a wide area. Rice hongs on Kaifeng, Chengtu, Taku, Shanhaikwan, Burkill, Robinson, Carter, Ichang and Kiao Chow Roads were victimized in the International Settlement. In one case the rioters got away with \$400 worth of rice which they loaded on rickshas.

Lessen Terror

Outstanding in most of the riots was the fact that the unruly crowds almost invariably demanded 20 cents' worth of grain which was refused by shops selling for a minimum of \$1.

In two instances, however, police squads which rushed to the scene ordered the shops to sell the crowds 20 cents' worth.

Meanwhile, a fairly accurate report of rioters' activities on Friday shows that 36 hongs were raided, 92 men and women arrested, and 1,300 piculs of rice, valued at approximately \$40,000, were stolen in the course of the riots.

Stores which lost more than 100 piculs worth approximately \$4,500, each were the Tung Hai Rice Shop on Edinburgh Road, the Wei Shing Rice Shop on Jessfield Road, the Chien Zung and Tuh Zung Rice Shops on Great Western Road, the San Tai Rice Shop on Robeson Road, and the Vail Tai Rice Shop on Route des Boeufs.

Racketeers Seen Behind Rioting

Intimidators and Loafers Arrested as New Wave of Rice Raids Sweeps City

In the course of another day marked by mob raids on dozens of rice shops, the Settlement Police yesterday arrested a number of Chinese racketeers who have been instigating many of the disturbances and also took into custody scores of loafers who were active in the raids and some of whom suffered broken pates as a result of baton charges. Most rice shops in the Settlement and the French Concession closed their doors at 5 p.m. The price of the grain declined only \$1 per picul yesterday, and the cheap supplies promised by the Japanese army last Tuesday did not materialize. There were no reports of rice riots in the Eastern district.

Eight calls to rice shops were answered by police at the Bubbling Well Station, who broke up the disturbances and recovered some of the stolen grain. They arrested nine troublemakers, but more important was the rounding-up of racketeers in the district who had been mulcting shop owners under threat of causing the establishments to be wrecked. Here, as elsewhere, an organized racket was indicated. In some instances the owners paid rather than risk a visit by the mob.

The biggest raid on rice in the Bubbling Well district occurred at 83 Annam Road, where seventy piculs of rice and thirty bags of flour were stolen. The police recovered only a small part of the loot but arrested five of the looters. Thirty piculs were stolen at 283 Hart Road, where four men were arrested.

13 Raids in Five Hours

The congested Sinza district, which has a large number of rice shops, experienced thirteen riots during the day. Twelve Chinese, mostly of the loafer type, were arrested. Two of the rioters were treated in hospital for broken heads incurred during the disturbances. All thirteen raids took place within five hours, between 11.15 a.m. and 4.15 p.m.

In other districts the attacks started earlier in the day. A large-scale disturbance took place in the Footoo Road district at 9 o'clock when a mob of several hundred looted 1397 Ferry Road. The police arrested 21 men and women and recovered most of the stolen rice. The Chengtu Road district had many raids and other disturbances were quelled in the West Hongkew, Gordon Road and Louza areas. Three looters with broken pates were sent to the Police Hospital from 65 Taku Road after an attack.

The Settlement Police and the French Concession Police both responded to a call to 866 Avenue Haig, where a shop was being looted.

Woman Trampled by Mob

It was ascertained yesterday that a Chinese woman died as a result of being trampled by a mob stampeding through a narrow lane in one of Friday evening's tumults in the western district. These disturbances, which took place in rapid succession at a number of shops in the highly-populated areas, were likewise attributed chiefly to the work of Chinese racketeers and their loafer and opium addict henchmen.

The retail price of rice in Shanghai yesterday was from \$39 to \$42 per picul for the best grade or "kan mee," and \$34 to \$35 for "see mee." This represented a reduction of \$1 per picul since Friday. Saigon rice was being sold for about the same price as the domestic grain.

Three Strikes Settled

In the field of labour some improvement was achieved when three strikes were ended. The establishments in which work was resumed were the China Soap Co., British, Yangtzepoo; the Ewo Cold Storage Co., British, Yangtzepoo; and the China Native Products Co., Nanking Road, Chinese.

At a meeting held yesterday afternoon, the executives of the Shanghai Rice and Bean Dealers Association decided further to reduce the prices of their goods. The first grade rice was fixed at \$40 as compared with \$45 last week, and the "see mee" at \$33, showing also five dollars' decrease. While thus trying to alleviate the situation by reducing prices, members of the association petitioned the authorities for full protection so that they could do business today.

Market Closed

The Shanghai Rice Market was closed yesterday because of the many raids on shops. Realizing that the situation was becoming extremely serious the executives of the association hurriedly held a conference in the afternoon. Although the market could not be opened yesterday it was learned last night that it would be opened today. A Chinese evening report stated that the closing of the market was considered by some quarters as a "quiet protest" against the proclamation issued by the authorities against rice profiteers.

The police of the French Concession dealt with seven rice riots yesterday and arrested over a dozen looters and instigators.

NORTH-CHINA DAILY NEWS

DEC 17 1938

**Chengtu Road Rice
Disturbance****Police Called Out to
Quell Riot; Arrest Three
Principal Offenders**

Typical of most of the rice riots, the one which broke out in the San Mow Rice Shop in Chengtu Road near Taku Road yesterday morning and which was viewed by a representative of the "North-China Daily News" was started by only a few poor people whose offers to buy 20 or 30 cents worth of rice were turned down. Soon more poor men gathered to see what was happening and heated arguments which ensued attracted more pedestrians and sympathizers who began to shout complaints.

Shop assistants tried to hurriedly shut the door shortly before 11 a.m. The crowd was then eight or nine persons deep. Two constables hopelessly tried to pacify the rioters. Before the angry shop assistants could close the door entirely, the crowd became larger and began storming the shop by forming human ladders.

The poorer people who usually are much afraid of the police paid no heed to the latter's words, elbowed for better positions in the crowd, and began a mad stampede for the door which could not be closed. Many succeeded in entering the shop by climbing over their fellows, and stole flour.

Shops Close Doors

Rice and beans placed in baskets near the door as sample goods were spilled and trodden on. Part of the pavement and the dark winter police uniforms were covered with white flour. The battle was concluded within about 20 minutes, leaving in its wake many discarded shoes and spilled rice and flour. Three rioters were taken to Chengtu Road Police Station in a van. Rice shops in other streets also closed their doors leaving small openings through which to transact business.

In a way the shop assistants could hardly be blamed for the trouble for they said that they had no measures which could hold only 20 or 30 cents' worth of rice. Judging from complaints made by the poor yesterday it would appear that they misinterpreted the proclamation issued by the Settlement authorities warning rice profiteers that no sanctuary would be given them.

It would also seem that they riot thinking that the smaller retailers are the profiteers.

Hungry And Infuriated No. 5. Mobs Stage Wholesale Rice Riots Over City

21 Rice Honges Looted During Day In Settlement;
Police Busy Dispersing Mobs, Recovering
Stolen Rice And Making Arrests

WARNING SHOTS FIRED INTO AIR BY POLICE TO FRIGHTEN CROWDS

Wholesale rice riots broke out all over the Shanghai International Settlement, especially along the Outside Roads, early yesterday afternoon. Hungry and infuriated mobs attacked rice shops, creating a pandemonium all over the city, and necessitating the turn out of squads of police to clear the unruly crowds.

In two instances warning shots had to be fired by the police into the air to scare away the angry mobs. Well over 60 arrests were made by officers of the different police stations in whose districts the riots occurred. Most of the riots were staged in the Bubbling Well district, especially along Brennan, Edinburgh

and Yu Yuen Roads.

The frightened rice shop proprietors and assistants put up their shutters and closed their shops, but in a number of cases the mobs broke down the doors and on getting inside the stores started looting as much rice as they possibly could. Large quantities of rice were stolen from the various honges. In some cases well over 30 or even 50 piculs being carried away prior to arrival of squads of police.

Although no definite proof was available last night, it was generally believed that the majority of the riots, especially those that were staged along Edinburgh, Brennan and Bubbling Well Roads, early yesterday afternoon were organized. The riots in the area were staged within the space of two hours, between 2.30 and 4.40 p.m. Seven arrests were made at the five riots by officers of the Bubbling Well Police Station, who rushed from the scene of one riot to another.

Shots Fired

On being unable to halt a large mob from looting a rice hong at 301 Seymour Road at about 3 o'clock yesterday afternoon, a lone Chinese constable of the Shanghai Municipal Police, fired two shots into the air in order to frighten the crowd away or at least to cool their ardour. The mob halted for a minute, but then with a cry rushed the shop, broke down the door and commenced looting. A call for assistance was put through to the Bubbling Well Police Station and a party immediately turned out, clearing the remains of the crowd away.

Several shots were reported to have been fired into the air at about 5.20 p.m. during the mob attack staged on a rice shop at the corner of Edinburgh and Yu Yuen Roads. A check-up among the officers of the S.M.P., who turned out to the scene revealed that no shots were fired by them. It was believed that the warning shots were fired by City Government policemen, but this could not be checked last night.

While in some cases the attacks on honges were organized by hooligans in other cases there was a spontaneous flare-up when purchasers were not able to obtain the staple product at prices to meet their pockets. The customers would start arguing with the shop assistants, crowds would gather around the shop, become infuriated and then an attack on the shop and looting would follow.

Special Guards

Despite the fact that most of the rice honges had closed up early in the afternoon and are likely to keep their premises padlocked to-day, special police guards have been placed at all rice shops all over the city to prevent any further mob attacks.

Officers of Bubbling Well, Gordor Road, Pooloo Road and Sinza Police Stations were kept busy throughout the day turning out to rice riots, make arrests and inquiring into the various cases.

The first riot of the day occurred at 7.15 a.m. when a large crowd attacked a rice hong at 78 Singapore Road and stole 20 piculs of rice. A party of police from Pooloo Road Police Station responded to the call and arrested three men and women and recovered a quantity of the stolen rice.

In the afternoon the riots came in such rapid order that it was almost impossible to keep check on them, police moving from one scene to another with hardly time to return to the station.

In French Concession

Only one rice riot was staged in the French Concession during the course of the day. The rice hong located at No. 414 Rue Tenant de

La Tour was raided by a large crowd of Chinese at 4.30 p.m., and two piculs of rice were stolen. Promptly after the theft the mob dispersed and scattered. No shots were fired by the police and no arrests made.

Special precautions are being taken by the French Concession authorities. A party will patrol in front of rice shops in the Concession to-day in an attempt to avoid the gathering of mobs and raids of rice shops. It is understood that plans have been made for police riot vans or patrols in armoured cars to pass rice shops within periods of 15 minutes.

No rice riots were reported to have taken place yesterday within the Settlement or Concession after 6.50 p.m. The rice honges in general close down after 5 o'clock.

Widespread rumours that a mass rice riot was going to be staged during the afternoon caused almost all stores in the French Concession to close up for business shortly after 4 o'clock.

Riots were staged at the following honges:

- Three riots between 11 a.m. and 3 p.m. in the Bubbling Well district.
- 2.30 p.m.—Lane 391, House 1,107 Hai-phong Road, 17 arrests.
- 3.10 p.m.—512 Tatung Road. Several arrests.
- 3.50 p.m.—820 Avenue Road. Two arrests.
- 3.09 p.m.—301 Seymour Road.
- 4.10 p.m.—372 Medhurst Road.
- 2.30 to 4.40 p.m.—323 Brennan Road.
- 5.02 Brennan, 3 Brennan Road, 1954 Bubbling Well Road, 623 Edinburgh Road. Seven arrests.
- 5.51 p.m.—859 Ferry Road. One arrest.
- 4.15 p.m.—532 Wuting Road. Eight arrests.
- 4.50 p.m.—532-4 Sinza Road.
- 4.50 p.m.—888 Sinza Road.
- 5.00 p.m.—1309 Penang Road. Six arrests.

Rice Riot Is Staged By An Irate Crowd

Police Are Called Out
To Disperse Crowd
In Hart Rd. Raid

FOUR CHINESE TO BE CHARGED IN COURT

A crowd of about 100 hungry Chinese, among them a certain amount of the criminal element, staged a rice riot on Hart Road, in the midst of the poor man's district, yesterday afternoon. The crowd raided a rice shop at 1,480 Hart Road at about 5.30 p.m., managing to steal over 40 bags of rice before a party of police from Pootoo Road Police Station arrived on the scene and scattered the rioters.

Pandemonium reigned for a while as infuriated men and shrieking women scrambled to lay their hands on as much rice as they could carry away. The shop assistants fought tooth and nail, but were overpowered. A couple of policemen rushed to the scene, but could do nothing to stop the rush of about 100 hungry people.

A call for assistance was put through to the Pootoo Road Police Station and a party of police, under Inspector Watson, responded immediately, clearing the crowd a few minutes after they came on the scene and detaining seven men. After investigation, four of the men were placed under arrest and will be charged in the First Special District Court this morning. It was estimated that over \$1,500 of rice was stolen and scattered over the street during the riot.

After the riot, a guard was left at the victimized hong, while other rice stores in the city are also being given special protection.

Drop in Price

The local rice market remained very quiet yesterday, with the price of the first quality of the staple dropping to \$43 per picul, as compared with \$45 on Wednesday. Purchasers, both local and outport, were reluctant to buy at yesterday's prices, expecting a sharp drop within the not too distant future.

Although the best quality rice was quoted at \$43 in the official market, many retail stores were offering the same quality at as low as \$40 per picul. The shopkeepers explained that they had bought their stocks at a time when the prices were far below the present level and that they wished to pass on part of their profits to their customers.

It was reported yesterday that over 10,000 bags of foreign rice arrived in Shanghai yesterday and that about 1,100 bags of domestic rice was brought in by rail and junk.

Sir,

At 4.50 p.m. August 31, 1939, C.P.C.3301 brought to West Hongkew Station one named Tsang Tse (張錫), 42, native of Kompe, S/Unemployed, residing at 115 Rue Bourgeat French Concession, whom he arrested on Winchester Road at the request of C.P.W.365, employed by the National Industrial Bank of China Godown, who alleged the above-named person threw a stone through a window of the godown.

The said constable also brought to the station two pamphlets which had been handed to him by C.P.Cs.2284 and 2669, who found them on Winchester Road near the aforementioned godown. These pamphlets, as far as can be ascertained from a rough translation, refer to owners storing rice in godowns with the result that no rice is for sale in rice shops; and that poor people cannot buy it.

The above-named person who was arrested for breaking a window in the National Industrial Bank of China Godown Building, when questioned by C.D.C.301 and the undersigned stoutly denied being responsible for the distribution of the pamphlets. He admitted, however, smashing the window. He explained this by stating that he was unemployed, and that on seeing several trucks loaded with rice outside the said godown, he became excited and threw a stone through a window.

There being no evidence whatsoever to connect this man with the distribution of the pamphlets, and as Mr. Tang Tsao Zing (唐澤祥), Manager of the godown in question, informed police that he did not wish to take any action against him for

At 7 p.m. August 24, about fifty poor women and juveniles appeared outside the Yuen Chong (源昌) Rice Shop, 92 Tung Chong Road, Pootung, and knocked on the door claiming that they wished to purchase rice. On the door being opened the mob rushed into the shop with the intention of looting, but found that there were only eight piculs of glutinous rice on the premises. While an altercation was in progress between the mob and the shop assistants over the purchase of rice, several patrols of the Japanese Naval Landing Party happened to pass by. They ordered the shop-keeper to distribute a small quantity of free rice to each person, with the result that the concern suffered a loss of one third of a picul of the glutinous rice.

Following this incident, the "Pootung District Administrative Office" issued a notice stating that all the stocks in rice shops at Pootung had been sold and that the "authorities" would arrange for a cheap sale of rice between 1 p.m. and 4 p.m., August 25. The residents in Pootung were urged to purchase the same from the authorities on that date.

During the afternoon of August 25, some 500 piculs of rice were brought to Pootung by Mr. HASHIMOTO (橋本), Chief of the Pootung Section of the Japanese Military Special Service Department. With the assistance of the village guild, Tung Chong Road, Pootung and some twenty assistants of rice shops, the

Sir,

At 11.40 a.m. 25-8-39 a telephone message was received at this station from C.P.C. 1960 to the effect that a crowd of Chinese were gathering outside the Doong Tan (同泰) Rice Shop 435 Ferry Road.

A party of Police under the Inspt. 1/ch, ^{including} C.D.C. 100 and the undersigned, immediately attended the scene and dispersed a crowd of approximately 100 male and female Chinese from the footpath outside the above shop.

Enquiries elicited that at 10.30 a.m. a small boy Tsu Wei Kyah (朱維嘉), aged 14, residing 19 Ching Kah Ong off Sinza Road O.O.L. purchased rice to the value of \$1.00 from a shop assistant named Wo Tsoong Zien (何仲銓), employed in the Doong Tan Rice Shop.

On receiving the rice the boy complained to the shop-assistant Wo Tsoong Zien that the amount of rice given him for \$1.00 was insufficient.

The shop-assistant became angry with the boy and slapped his face. The boy thereupon returned to his home with the rice he had purchased and informed his father Tsu Kung Pao (朱根宝) of his trouble at the rice shop.

The father Tsu Kung Pao accompanied his son to the rice shop where he demanded that the shop-assistant Wo Tsoong Zien explain why he had slapped his son and he also demanded the assistant weigh the rice, purchased by his son, in his presence.

The shop-assistant refused to comply with the

At 11 a.m., August 24, three rice shops at Shih Pah Ken (十八間), Pootung were ransacked by mobs and a party of the Shanghai City Government Police arrived and succeeded in apprehending some twenty of the looters. After it had been ascertained from the shop owners that nothing had been stolen other than rice, the looters were cautioned and released.

Following these incidents, the Pootung Police Bureau notified other rice shops to close their doors as a precaution against further attacks by mobs.

The Japanese Naval Authorities in Pootung however are maintaining an indifferent attitude to the rice situation, and following the disturbances the Japanese Naval Authorities prohibited members from leaving their billets at Pootung, presumably to avoid interference.

Sir,

At 8.30 p.m. 23/8/39 a telephone message was received from the Heng Deh (恒德) Rice Shop, 228 Yates Road stating a mob were attempting to loot the shop. a party of Police consisting of S.I. Moriat, D.S.I. Black, D.S.I. Yang, 2, D.S. 66 and uniform Police proceeded to the scene but no untoward offence was observed, beyond a crowd collected in the vicinity.

Enquiries from the shop-master Zau Foh Dau (赵福道) show that as the shop was closing for business at 8.30 p.m. 23/8/39 a large number of customers demanded service and this frightened the shop-master who put up the shutters and telephoned the station.

No rice was looted and no damage done. Obviously a case of undue alarm on the part of the shop-master.

Police on duty warned to pay special attention to the shop.

(Any outstanding or peculiar feature to be commented on by investigating officer).

At 8.15 p.m. 23-8-39, a telephone message was received at Yulin Road Station to the effect that a riot was in progress at the Zung Teh Daung (存德堂) Medicine Shop, 502, Ward Road.

In response to this message a party of police attended the scene, and dispersed a crowd of persons who had gathered outside the premises.

Enquiries ascertained that a rumour had been circulated amongst residents in the vicinity of the Zung Teh Daung Medicine Shop to the effect that some six hundred sacks of rice had been stored in the shop for safe-keeping by one named Woo Paung Vung (胡邦文), the proprietor of the Shanghai (上海) Rice Shop, 490 Ward Road.

The party of Police looked over the premises, and found that no rice whatever was stored therein, the rumour being obviously unfounded.

When the party of Police returned to the station Hav. 470 and S.P.C. 576 were detailed for duty at the scene, in order to prevent further disturbances.

At 9 p.m. 23-8-1939, P.S. 334 Kay telephoned the station to the effect that the crowd had again assembled and were preparing to attack the shop.

Remarks

(Any outstanding or peculiar feature to be commented on by investigating officer).

At 8.05 p.m. 20/8/59 a telephone message was received at this station from the Yi Yue Shing (依月生) Rice and Flour Shop 55 Chungking Road, to the effect that a large crowd had gathered outside the shop and that they were breaking down the doors.

G.D.C. 242, G.P.C. 2734 and the undersigned immediately attended and found that a mob numbering approximately 500 persons had stormed the shop in question and had wrenched the iron grilles from the front and side of the shop and forced open the wooden shutters and were engaged in looting bags of flour from the shop.

The police party immediately set upon the mob and with the assistance of G.D.S. 202 and one of his agents named Sung Koh Tsung (孫國成). (G.D.S. 202 was off duty and together with his agent was attracted to the scene by the sight of the crowd), succeeded in dispersing the mob.

After dispersing the main body of the mob the station was informed of the situation and a further party under S/I Glasville attended the scene.

Whilst dispersing the mob the first four accused, (1) Yung Zang Foh (尹長福), (2) Wong Sau Yung (王壽英), (3) Kwong Zang Kung (黃長根) and (4) a female Zung Liao Su (鍾麗民), each of whom was in possession of a bag of stolen flour, were arrested whilst attempting to escape from the scene.

A further seven bags of flour were recovered from the roadway where they had been dropped by

RECORD OF INVESTIGATION.

The total recovery by detectives being 20 bags total value \$125.00.

When brought to the station and questioned the seven accused each admitted having entered the complainant's premises stealing the flour although all deny having taken part in the actual assault on the shop and all denied having any knowledge of the theft of \$30.00 from the till.

When questioned the complainant Wong Wo Kyang stated that at about 7.30 p.m. 20/8/39 a crowd commenced to gather outside his shop which contained 265-50 lb bags of flour and 20-120 lb. bags of rice. This amount of flour and rice represented the complainant's total stock.

At 8 p.m. 20/8/39 the gathering crowd, which numbered approximately 400 persons, most of whom had apparently gathered from the neighbourhood and the majority of whom were of the coolie class, commenced to assume a threatening attitude.

At 8.03 p.m. 20/8/39, led by a group of about ten male Chinese of the coolie class, all of whom were armed with sticks, the crowd attacked the shop.

Prior to the attack by the mob the complainant had closed all the shutters and locked the iron grilles

outside the shop.

The mob, however, wrenched the iron grilles from their fastenings, forced open the wooden shutters and stormed into the shop, where from the ground floor they stole 120 bags of flour and \$30.00 in cash from the shop till.

When further questioned the complainant stated that he suspected that the raid on his shop might have been instigated by a loafer named Xia Yi Toong (謝紀東), residing Lane 87, 49 Changping Road, with whom he had quarrelled on the 20/7/39.

C.D. J. 202, C.D.C. 242 and the undersigned effected the arrest of this man (8th accused) at his home at 1.40 am. 21/8/39.

When brought to this station and interrogated the 8th accused admitted having quarrelled with the complainant on the 20/7/39 but stoutly denied having been in any way concerned in the raid on his shop and no evidence to connect him with this offence could be found.

Owing to the possibility that this man (8th accused) may have been concerned, he has been placed on 'Writ of Detention' pending the questioning of further arrests if any.

Further interrogation of the complainant revealed

that he is a member of the Rice and Flour Dealers Association and that at 3 a.m. 19/8/39 the price set by this association and quoted by the complainant was \$6.05 per 30 lb bag of flour. At 6 p.m. 19/8/39 complainant was informed by the association that the price per bag was \$6.10. On opening the shop at 7 a.m. 20/8/39 the complainant was informed that the price had risen to \$6.25 per bag and he raised his prices accordingly.

At 6 p.m. 20/8/39 the association informed the complainant that another rise in price to \$6.30 per bag had been ordered.

He accordingly quoted the increased price after 6 p.m. 20/8/39. This price increase apparently caused several of his customers to complain against the increased price and between 6 p.m. and 8 p.m. 20/8/39 no sales were made although several persons approached the shop but refused to purchase flour at the ^{new} increased rate.

From interrogation of the accused and of the complainant it appears to the undersigned that the raid was not premeditated but was staged ^{on the spur of the moment} as a protest to the continual increase in the price of flour.

It is worthy of note that the majority of the residents in the vicinity of the complainant's shop are

At about 8 a.m. they boarded a rice boat on the Creek to enquire regarding the permit, however as the owner of the rice was then not present they insisted that the unloading of the rice, cease until the owner appeared. breaking out on the boat and finally coming to an end on North Szechow Road when the C.P.C. interviewed.

According to the witness the first named person demanded \$20.00 before permission would be given to remove the rice. This occurred on the boat and is denied by the detective.

During the quarrel the detectives sustained injuries which were treated at the West Chinese Hospital. All medical certificates are marked, contusion, not serious, not detained.

The owner of the rice named Ung Sing Zung () residing Szechow Road was located and stated that the rice unloading permit was at present in the possession of the steam-ship owner named Yih Yeh Tsoong () who had brought the rice to Shanghai. On the latter being located this was confirmed and all parties left the station the incident being considered closed by the detectives attached to the Japanese Consulate. *A. H. H.*

REPORT

Date Jan. 17, 1940.

Subject Japanese purchase and export of rice.

Made by *by* and Forwarded by D.I. Crawford

Early in November, 1939, the Mitsui Bussan Kaisha and the Mitsubishi Shoji Kaisha were authorized by the Japanese military authorities to purchase 400,000 "zars" of rice at Sungkiang and Wusieh respectively for consumption of Japanese troops and also for the people of Japan and North China. The rice dealers and hong owners in those areas however showed their unwillingness to sell to these people and the wholesale purchases by the two Japanese firms were practically unsuccessful. It is estimated that only 20,000 bags were purchased in the Wusieh area and 30,000 bags in the Sungkiang area and transported by rail direct to Woosung, being exported from this point to North China and Japan. The unwillingness on the part of the dealers to sell to the Japanese was brought about by the low prices offered for the cereal and this attitude on December 1, 1939, resulted in the suspension of export permits to Chinese dealers transporting rice to Shanghai. Consignments of rice (totalling some 25,000 bags) which arrived in Shanghai on December 8, 9 and 10, on the strength of export permits issued prior to December 1, were detained at Markham Road Junction and subsequently transported to Woosung by rail and thence exported. Although the Japanese authorities

Monsieur M. Baudex,
Consul-General for France.

Shanghai.

Sir,

Re: SAIGON RICE TO SHANGHAI.

Please refer to our letter of the 31st December 1939, when we reported that in all 3 lighters with about 1200 bags of Saigon Rice had been detained by some Japanese but were eventually released.

In the intervening 3 weeks we have had several further annoying incidents, but having successfully explained matters to the Japanese Naval and other Authorities, and believing that these explanations would free us from further annoyances, we did not report them to you. As we are again faced with a very serious situation as described below we are obliged to recount the following.

On Monday, the 8th instant, at about 1 P.M., 7 motor trucks, each loaded with about 40 to 45 bags Saigon Rice from the Shanghai & Hongkong Wharf Co's Munt's Wharf, Broadway, when trying to cross the Garden Bridge into the Central District, were arrested by the Japanese Gendarmerie and taken to their Headquarters on North Szechuan Road where the trucks with the rice, the drivers and the coolies were detained overnight and only released at about 11 A.M. on Tuesday, the 9th instant, and they came over to the Central District. The S.M.C. License numbers are:-

17398 - 22089 - 22465 - 16988 - 16534 - 16704 - 22096.

Our Mr. J. Lang spent a whole morning at the Gendarmerie Headquarters when he proved to the Officials that the rice was of French origin, imported by a French firm, and shipped by British steamer "Hannah Moller", and some by the Italian steamer "CORTELLAZZO" from Saigon to Shanghai, and it was only after very tedious waiting for a certain official to come to the office before the trucks were released. We believed then that this incident having been explained there would be no repetition and therefore did not wish to trouble you about the matter.

10/1/40.

Today a large number of trucks again went to the Shanghai & Hongker Wharf Co's Hunt's Wharf, Broadway, to take delivery of further lots of Saigon rice, and they were not interfered with until they reached the Garden Bridge when they were not allowed to cross over the Bridge and ordered to turn back. They were not arrested or detained as on the 8th instant, but as they were not allowed to cross the Bridge to the Central District the trucks were obliged to return to the Wharf and park there until a settlement is arrived at over this interference.

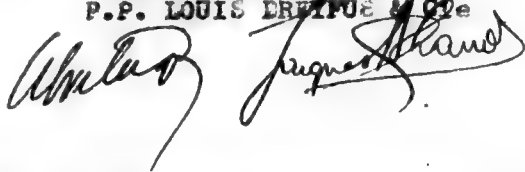

The Japanese Gendarmerie have explained that they cannot allow transportation of any kind of rice over the Garden Bridge into the Central District or into the French Concession without the trucks being able to show some kind of a Pass issued by the Ta Tao Authorities situated at the "Civic Centre at Kiangnan Road". This demand seems to us very pretentious as we fail to see how any regulations which may be issued by the Ta Tao Officials, outside of the area of the Foreign Concessions, can be made applicable to foreign residents inside these areas. We would ask your guidance as to whether we should apply for such so-called "Passes."

The S.M. Police are evidently not able to help us in this matter, and as a continuance of such interference of our freedom to trade in foreign rice and to transport it within the area of the Foreign Concessions is an infringement of our Treaty rights, we beg you, Sir, to make the necessary representations as soon as possible at the correct quarters.

We beg to remain, Sir,

M/Trucks loaded with Saigon Rice detained
by Japanese Gendarmes on Garden Bridge.

At 10.30 a.m. 9/1/40 the undersigned together with Mr. Jacques A Lang, an employee of the Louis Dreyfus & Co., proceeded to the Japanese Gendarmerie Headquarters, Bridge House, N. Szechuen Road where we interviewed Second Sub-lieutenant Ando who, in turn, told us that in case of Chinese owners, who wish to remove rice to the South of the Soochow Creek, they must first obtain permits from the Paymasters' Department of the Japanese Army.

The m/trucks loaded with Saigon rice have been detained by Japanese Gendarmes on Garden Bridge because none of the persons on the trucks could produce any permits or documents to prove the owners of the rice being foreigners.

As the owners of the rice have been found to be foreigners therefore the seven m/trucks loaded with rice were released at 11.50 a.m. this instant.

M/trucks loaded with Saigon Rice detained by
Japanese Gendarmes on Garden Bridge.

At 3 p.m. 8/1/40, a telephone message was received from Louis Dreyfus & Co., 181 Kiangue Road stating that a great number of sacks containing Saigon rice loaded on several m/trucks had been taken away by Japanese Gendarmes from Garden Bridge and detained at their headquarters, Bridge House.

Enquiries by the undersigned ascertained that the m/trucks had been detained on the ground that the Company failed to obtain permits from the Paymasters' Department of the Japanese Army at Civic Centre for the transportation of the above cargoes to south of the Soochow Creek.

At 5 p.m. 8/1/40, the undersigned accompanied by one named Ching Shing Vung (金星文), an employee of the above Company, proceeded to the Bridge House and explained a provost sergeant Furuta that no permits had previously been required for any rice imported from abroad on presentation of "Bill of Lading".

On the following explanation, the Gendarme, after obtaining the instructions from a senior officer, allowed one of the eight m/trucks to be released, however, the remaining seven m/trucks could not be permitted to go until their full investigations regarding the origin of the rice are completed.

With reference to the attached report from Bubbling Well Station on the cheap rice sale depot established at ^X966-8, Yu Yuen Road, enquiries ascertain that this establishment obtained their supplies from the Western suburbs of Shanghai. Takamatsu, the owner of the shop, has close affiliations with the Japanese troops stationed at the Toyoda Cotton Mill, No.200 Jessfield Road (beyond the perimeter), who are responsible for the garrisoning of the Western suburbs, and with the assistance of the latter, he is said to have coerced the owners of the rice boats detained in the Soochow Creek to sell their rice to him at prices around \$20.00 per "zar."

On December 12, 1939, 1,700 sacks of rice were transported by motor truck to the godown of the Commercial Express and Storage Company at 480 Baikal Road and 300 large bales of cotton to the godown of the same company at Chaoufoong Road, from lighters tied alongside the Kwang Shing Public Jetty, Yangtzepoo Road. Another consignment of rice, consisting of 5,000 sacks, which arrived in Shanghai on December 14 and were intended for unloading at the Kwang Shing Public Jetty, Yangtzepoo Road, were later transported by river to the M.B.K. godown at Dixwell Road and East Broadway corner for storage.

According to information received by Yulin Road Police Station from a person arrested on December 12, 1939 when a dispute arose over the transportation of the rice, the two consignments of rice mentioned in the previous paragraph were brought to Shanghai from the interior for delivery to Chinese owners residing south of the Creek, but the M.B.K. company on learning of the owners persuaded them to sell the entire lot to them at their price. The first consignment of 1,700 sacks being purchased at slightly over \$32 per "sar." Sir,

On the morning of December 16th 1939, the 1,700 sacks of rice were removed from the Commercial Express and Storage Company Godown, 480, Baikal Road, and transported to and stored in godowns owned by the Mitsui Bussan Kaisha, at Dixwell Road and East Broadway corner.

It was learned from Levin, that the M.B.K., had prevailed upon the Chinese owners to sell the consignment of rice to the company. Slightly over \$32.00 per picul was paid for the rice, which permitted the owners to make only a very small percentage of profit.

It was further learned from Levin, that on December 14th 1939, N. Tsuchima brought another consignment of rice, consisting of 5,000 sacks, from the interior to Shanghai. This consignment of rice was also intended for delivery to the Chinese owners, in the South of the Greex area, but once again the M.B.K. company stepped in and purchased the entire lot.

This consignment of rice, which it had been intended to unload at the Kwang Shing Public Jetty, Yangtszepoo Road, is now being transported by river to the M.B.K. godown at Dixwell Road and East Broadway corner, for storage.

Sir,

At 5.10 p.m. December 12th. 1939, a report was received at Yulin Road Police Station regarding a case of assault which occurred, during the unloading of a motor-truck load of rice, outside the entrance to the Commercial Express and Storage Company Godown, 480, Baikal Road. (Vide F.I.R. 1148/39).

Investigation of this report led to the arrest of a Russian Jew, one named Sam Levin, aged 28 years, a motor-truck broker, residing at No. 16 Park Apartment, 455, Rue Lafayette, F.C.

During the questioning of Levin he disclosed that, acting on the instructions of a Japanese subject named N. Tsushima, Manager of the San Shin (三新) Co., Exports and Importers, Room No. 124 A, Harpoon Building, 233 Nanking Road, whom he has known for some years, he arranged transportation for 1,700 sacks of rice and 300 large bales of cotton from lighters tied alongside the Kwang Shing Public Jetty, Yangtszepoo Road. The cotton was stored in the godown of the Commercial Express and Storage Company, at Chaoufoong Road, and the rice in the godown of the same company, at 480 Baikal Road.

According to Levin he does not know from which part of the interior the rice arrived, but he is aware that Tsushima has sufficient influence to enable him to transport materials and foodstuffs from the interior on behalf of Chinese. Levin is aware that Tsushima has already done so on a number of occasions, and he believes that the present cargo of rice is intended for the use of a group of Tsushima's Chinese friends, who are residing South of the Creek, but he is unable supply any names.

On November 15 and 16, 1939, some 625 bags of rice arrived at Markham Road Junction by train from Wusih. Export of rice from this locality is prohibited except by permission of the Japanese authorities and it was subsequently ascertained that this consignment had been dispatched by the Wusih branch of the Yung Shing (永興) Transport Co. of 761 South Soochow Road under a forged permit purporting to have been issued to a Japanese named Botoku Kichijima, c/o Kichiko Co., Wusih.

The Japanese Military Police then detained 375 bags still at the Junction and instituted enquiries to trace the remaining 250 bags which had already been delivered to the purchasers.

It was ascertained that 125 bags had been delivered to the Yuen Mei (元美) Rice Hong at 344/13 Burkill Road, which on November 18 was visited by a party of Japanese military police who nailed up the room in which the rice was stored and informed the occupants that the consignment would be removed on the following day.

Taking with them two Chinese employees of the Hong, the party proceeded to the Yah Chong Teh (叶冲德) Rice Hong at 206 Avenue Road which concern had purchased the remaining 125 bags. Of this number, 48 had been retailed in small quantities and 77 sold to the Zung Woong Yoong (成永永) Rice Hong at 754/102 Tsepoo Road by whom they had been stored in

The case was subsequently reported to the Municipal Police and guards posted at the three places at which the rice was stored.

On the morning of the 19th, the Japanese Military Police arrived at 777 Soochow Road with five motor trucks with the intention of seizing the rice. A party of police in charge of the D.O. P. I. Bueckert 1/16

Sir,

At 12.30.a.m. on the 19-11-39, a telephone message was received at Louza Station from D.S.I. Watson, Sinza Station, to the effect that he had been instructed by the D.O. "B" Division, to inform Louza Station that some Japanese had attempted to seize some rice in a godown in West Hongkew District and Sinza District and also in Louza District and the D.O. "B" Division had requested that a Police guard be posted at the godown in Louza District to prevent removal of the rice.

The godown in question is owned by the Shanghai Commercial & Savings Bank Ltd., and is located at 777 Soochow Road.

F.P.S. Morrison and C.P.C. 1307 were posted on duty at the godown at 7.a.m. 19-11-39.

At 8.55.a.m. 19-11-39 F.P.S. Morrison informed Louza Station by telephone, from No.2 Telephone Box, that a party of Japanese had arrived at the godown with five motor trucks.

The D.O. "A" Division, officer i/c of Louza Station, and a party of Uniform Police and detectives attended. F.S. No. 675 Murata and F.P.S. 817 Gondo were also called to the scene from Central Station.

could be properly investigated. The Police party together with the Japanese and Chinese parties concerned then all returned to Louza Station, while a Police guard was left at the godown.

Further enquiries were then conducted by D.S.I. Elders, D.S.I. Kobayashi and C.B.I. 336.

The Japanese party consisted of Sergeant Uyetake Take attached to the Japanese Military Police at Wusien and Mr. Kume Toyota, Manager of the Tung shu (東華) Trading Co. 176 Japanese Road, C.O.L. residing 51 Tung Tsau Li (東亞里) Scott Road and two employees of the Nippon-Transportation Co., North Szechuen Road.

According to Mr. Toyota, he had been away from Shanghai in Wuhu on business from the 14-11-39 to the 17-11-39. When he returned to Shanghai on the evening of the 17-11-39 he was questioned by the Japanese Military Police as to whether he had recently transported rice from Wusien to Shanghai. He had replied in the negative because he knew that the Japanese Military had a monopoly on all rice in Wusien.

He was informed by the Military Police that a cargo of 600 bags of rice had been despatched from Wusien to him in Shanghai on the 13-11-39 on 14-11-39. The rice had been sent by railway to the Markham Road Station and the Military Police had made enquiries and found that 250 bags of the rice had already been removed from that Station on the 15-11-39 while the other 350 bags were still there. These 350 bags had

been seized by the Military Police.

Mr. Toyota denied all knowledge of the rice and it was then ascertained that the delivery permit referring to the removal of the rice from Wusich was counterfeit. The delivery permit purported to show that the rice had been sent to Shanghai by a Japanese named Botoku Michijima o/o Kichiko Co., Wusich, who had obtained the rice from the Yung Shing (永興) Rice Hong in Wusich, the manager of which hong is a Chinese named Soong Sih Yang (宋錫揚), for delivery to Mr. Toyota in Shanghai.

Mr. Toyota was suspected by the Military Police of illegally bringing the rice to Shanghai because he had previous dealings with the Yung Shing Rice Hong in Wusich. Therefore, Mr. Toyota and the Military Police continued enquiries with a view to finding the 250 bags of rice.

They succeeded in ascertaining through the Nyeu Ping Kee (鈕炳記) Transportation Co., 17 Canton Road, who had transported the rice from the Markham Road Station, that 125 bags of the rice had been taken to a rice hong at Lane 344/13 Burkill Road and 125 bags to a rice hong at 208 Avenue Road.

Mr. Toyota and Sergeant Take of the Military Police went to these rice hongs on the afternoon of the 18-11-39. Enquiries at the first hong revealed that the proprietor was absent.

At the second hong they questioned the manager and ascertained that he had received 125 bags of the rice but he had re-sold 75 bags to the Zung Sheng Yoong (成 永) Rice Hong at Lane 754/102 Taenoo Road, the other 50 bags had been sold by retail to customers.

They took the manager of this hong to the hong on Taenoo Road and there interviewed the manager of that hong who told them that the 75 bags of rice were then stored in a godown at No. 777 Gooshow Road. The manager of this hong took them to the godown and showed them the rice.

Mr. Toyota and his assistants to the rice hong manager told him that the rice had been brought to Shanghai by the Military Police and that the rice should be handed over to the Military Police. He also told them that he would bring trucks to remove the rice from the godown and the hong at 9 a.m. on the 19-11-39 and the hong managers agreed to this, the manager of the hong on Avenue Road also agreeing to make up the 50 bags which he had already sold.

Regarding the other 125 bags of rice, there are at present stored at the Yuan Mo (元茂) Rice Hong at Lane 344/13 Burkill Road.

Two employees of this hong were arrested by Mr. Toyota on the 18-11-39 and taken to the Military Police in Hongkew because they were unable to give a satisfactory statement regarding the rice.

Each has documents from the Hong in Wusieh asking them to accept delivery through the Transportation Company. They have conducted business previously with the above Hong and always through the same Transportation Company, which is Japanese controlled and which has an Agency in Wusieh.

In regard to the above deliveries the two informants have paid the purchase price to the Transportation Company, \$5000.00 in each case.

They admit that the Japanese Authorities have placed a ban on the export of rice from Wusieh, but did not believe this to be important as the

Transportation Company was Japanese controlled.

At about 3pm. on 12/11/39 three Japanese and one Chinese in civilian clothes entered the Hong of the 1st informant at No. 13, Lane 344 Burkill Road and asked for the informant, who was absent. The accountant admitted when questioned regarding the receipt of 125 bags of rice from Wusieh and was told by the Japanese, through the Chinese as an interpreter, that the export of rice from Wusieh was forbidden and that the rice would have to be returned.

The callers then nailed up the front and rear door of an inner room used to store the rice, and took the following employees to a waiting motor car, licence number unknown:

Dau Sing Di (陶心弟), aged 30, native of Pootung, accountant.

Ling Kweh Hui (林国年), aged 21, native of Pootung, shop-assistant.

The five remaining employees were warned not to tamper with the rice and to tell their employer to be present at 9am. on 19/11/39, when the 125 bags of rice was to be removed.

The two employees were then driven off in the motor car, which is described as of a yellow colour similar to that used by Japanese Army Officials.

He was asked if he had made a purchase of 125 bags of rice from Wusieh and he admitted having done so and that he had resold 77 bags of the rice to the owner of a Rice Hong at No. 102, Lane 754 Tseepoo Road.

He was then told to enter the motor car, and did so, noticing the 1st informant's two employees in the vehicle.

The party then proceeded to the Hong at No. 102, Lane 754 Tseepoo Road, the owner of which informed the Japanese that he had stored the rice in a Godown at No. 77 Soochow Road. This owner then entered the car and accompanied the party to the godown, where the rice was inspected.

He and the 2nd informant were then released and told to be at the godown at 9am. on 19/11/39, when the rice would be removed. The 2nd informant was also told that he would have to produce the remaining 48 bags of rice.

Illegal transportation of rice from Wusieh.

///

and

D.S.I. Unamoto.

Sir,

In connection with the case of illegal transportation of rice from Wusieh, I have to report that the gendarme office in charge of this case having returned to Wusieh, I have managed through the courtesy of the local Gendarmerie Headquarters to get into touch with him over the Military long distance telephone and learned from him that as he was not in a position to negotiate with the S.M.P. he would ask his senior officer to make an official request for the handing over of the rice in question.

H. C. (Sp. Br.)
Infor. unit

Under the circumstances, there is no way of proceeding with the case but to wait for the communications from the Gendarmerie at Wusieh.

Mr. K. Toyoda, Proprietor of the Tokwa Trading and Transportation Co., 178 Paoshan Road, came to this office and submitted a petition in Japanese, a translation of which is attached herewith.

On the afternoon of November 22, 1939, Mr. Y. Hayashi, Manager of the Markham Road Office of the Nippon Tsuun Kaisha (Transportation Co.), was interviewed, in the course of which he stated that on November 16, 1939, the Tokwa Trading and Transportation Co., the consignee of a cargo of rice was informed that their cargo had arrived from Wusieh. A Chinese employee of the firm named Tsai Tuo Yih (蔡 久 益), aged 38, residing in French concession, went to the Markham Road Office with a delivery order and removed 250 bags of rice. This Chinese absconded on November 18, the date on which

his employer was called to the Japanese Military Police Headquarters having been accused of illegal transportation of rice. The delivery order, bearing the seal of the Yung Shing and Co., 761 South Seochow Road, was obtained on loan from Mr. Hayashi and is attached herewith.

In reply to a question why the delivery was made to the Yung Shing and Co., which is a Chinese concern, despite the fact that the name of the consignee was clearly stated in the delivery order as K. Toyoda, Mr. Hayashi stated that he had not suspected anything wrong being done for the man who had produced the document was quite acquainted with him and an employee of Mr. K. Toyoda.

Mr. Toyoda expressed his regret that the Transportation Co., had delivered the cargo against the delivery order which had not been duly signed by him. This was refuted by Mr. Hayashi on the ~~ground~~ ^{not} that the use of any particular seal or signature was ^{not} previously reported by Mr. Toyoda.

It is learned that the Military Authorities will not take any action against K. Toyoda as it was ascertained from their enquiries that he was not concerned in the case.

November 20, 1939.

Mr. Uyehara,
Deputy Commissioner,
S. M. P.

Sir,

Petition re illegal transportation of rice stock
within the control system enforced by the Japanese
Japanese Army, by falsely representing the petitioner.

Name: Kyuma Toyota, age 42.

Permanent Domicile: No. 30, Kenya-cho, Kanda-Ku, Tokyo.

Present Address: No. 51 Tung Chao Lee, Scott Road, Shanghai.

By falsely representing the petitioner as the consignee, 600 bags of rice were transported from Wusieh (武昌) to Shanghai, and 250 bags out of this number were received by the "Yung Shing" and Company (永盛公司) through the business office of the Nippon Tsuun Akaishi by means of a falsified receipt. The "Yung Shing" and Company transported the cargo into the International Settlement.

Accordingly, the petitioner, as the consignee named in the receipt, has been interrogated by the Japanese Gendarmerie in Wusieh () on a charge of illegal transportation of rice by means of a false "Transportation Certificate".

The petitioner wishes to emphasize that he is not at all implicated in this affair. He is well aware that at present he can not buy rice in the districts under the control of the Japanese Army without first obtaining a valid "Purchasing Certificate" issued by the Japanese Military Special Service Mission as well as one issued by the Asia Development Board.

On the early morning of November 14, the petitioner started for Wuhu (芜湖) by an express train and on the following day proceeded to the Wuhu sub-office of the Japanese Consulate-General, with a view to applying for a trading permit for my branch shop in that city.

Two days hence, i.e. on November 16, the petitioner proceeded to the wharf sub-office of the Japanese Gendarmerie in Wuhu and made the report to the effect that he had already applied to the Consular Authorities for permission to open a branch office in Wuhu.

On the morning of November 17, the petitioner left the town by train, returning home at about 8.50 p.m. the same day. Upon arrival here he was told that a member of the Settlement Detachment of the Japanese Gendarmerie had called both at his house and also his shop in Paoshan Road (寶山路), Chapei, and ordered his immediate attendance at the Gendarmerie Headquarters as soon as he returns home.

At 8.30 a.m. on November 18, just as he had telephoned to the Settlement Detachment of the Japanese Gendarmerie, a telephone call was received from the business office of the Nippon Truss Kaisha located at the Hartham Road Railway Yard requesting him to go to the office, as gendarmes were waiting for his presence there in connection with a case ~~xxx~~ involving transportation of rice.

Being ignorant of what had happened during his absence from this city, the petitioner hurried to the office only to be told that the Gendarmerie Authorities were now making arrangements to interrogate him.

Searching enquiries instituted by the authorities elicited the fact that the petitioner had been accused as the consignee responsible for the illegal transportation of a cargo of rice.

It was a great shock to the petitioner and being highly incensed over this false accusation, he made every possible endeavour to defend his case. The fact remains, however, that the rice in question had already been carelessly given out to an unauthorized consignee by the Nippon Truss Kaisha.

There, in order to establish his innocence, the petitioner resolved to ascertain the whereabouts of the cargo of rice so that the 250 bags reported as having ~~of~~ been misappropriated

may be recovered and returned to the Gendarmerie Authorities.

Realizing the possibility of dangers and other complications in the Settlement, the petitioner accompanied a gendarme from Wusieh and proceeded to make enquiries at the "Yung Shing" and Company, the alleged consignee, where we were told that the said company meanwhile had removed to the Hsing Hwa Hotel (新華旅館). The hotel was next visited and observations were maintained in order to locate the whereabouts of Soong Ching Yang (宋錦陽).

We were informed that the Chinese had already left the hotel. As the petitioner emerged from the hotel and walked into the street, by chance he ran into a man who had been formerly employed by the "Yung Shing" and Company. He was asked whether he could throw any light as to the present whereabouts of Soong Ching Yang in question and gave the information that the party had left for Wusieh on November 16.

By interrogating this man who had taken part in the transportation of rice, we became aware of the fact that one Hsu Ping Kee (徐平記), who is in transportation business and residing at House No. 46, Lane No. 126, Szechuen Road, was responsible for the removal of the cargo in question.

The petitioner then went back immediately to the Maritime Road Railway Yard and succeeded in locating a Chinese named Woo (吳) a go-between in this illegal transaction. This man subsequently led the petitioner to various places where the rice had been taken and all the bags were eventually located and identified.

The first address visited was The Yuen How Hong (元發號), Burkill Road, where 125 bags of Wusieh rice were found. However, the employees of the hong at first closed the fire front door in spite of the petitioner's request to be admitted to the premises, so the petitioner and his companion went round to the back door of the hong and quietly asked for an interview with the master on the pretext that he was a forwarding agent, introducing a rice merchant for a bonafide business transac-

otion. The idea was to ascertain the quantity of rice in stock there and also its origin.

The reply was very vague and extremely evasive. They told us the master of the Hong was away making purchases elsewhere.

forthcoming

As no definite answer was/ from the shop-assistants, the petitioner indicated to them his intention of demanding the handing over of the cargo of rice on the grounds that it had been removed without authority. However, on the plea of the shopkeeper's absence, the assistants refused to comply with this demand.

In consequence thereof, the petitioner was obliged to mail down the room where the rice had been stored and to take charge of the key for the front door pending the settlement of the matter for it was his idea to exonerate himself from this infamous charge levelled against him. The petitioner warned the men that no one will be allowed to remove the cargo.

As the petitioner became aware of the proprietor's hasty flight, at about 5.30 p.m. the same day, he accompanied two of the employees to the Japanese Gendarmerie, with a view to proving his innocence in the case. He resorted to this step realising that it would be best for the Gendarmerie Authorities to enquire for themselves.

Here the assistants were warned by the petitioner who advised them to speak the truth, for they would then be released as soon as the case is cleared up.

Although the petitioner felt very sorry for the two Chinese, yet he was obliged to take the steps as outlined above in order to exonerate himself from the blame.

The management of the Yeh Chong Tah Rice Shop (怡昌德米店), the next receiver of the illegally obtained rice, where 125 bags of the rice were reportedly transported from the "Yung Shing" and Company, asserted that no rice was left in stock and that 50 bags of rice have already been disposed of in retail

business.

The petitioner explained to the men in the rice shop regarding the particulars of the illegally acquired rice and demanded an explanation and asked them to produce evidence as to how the cargo came to be in their possession and how it was disposed of.

Eventually, it was disclosed by the inmates that the rest of the stock numbering 75 bags, had been sold to the Lung Fong Yung Hong (成豐永號), NO. 102, Wusoo Road.

Thereupon, taking with him a representative of the Yeh Sheng Yeh Rice Shop, the petitioner went to the Lung Fong Yung Hong, where he was informed that the cargo in question was placed in storage at the No. 2 Godown of the Bank of Shanghai, No. 777, Soochow Road. The godown was next visited and the information verified.

Having succeeded in locating the entire cargo of the illegally transported bags of rice, the petitioner immediately got in touch with the ^{Nippon} Tsuun Kaisha over the telephone requesting them to send a motor truck, but owing to the interruption of telephone service, this was unsuccessful.

The Lung Fong Yung Hong management were warned regarding purchasing of illegally acquired rice with the full knowledge of the circumstances of the theft and persuaded to hand over the cargo to the petitioner the following morning as the circumstances would be against them should they refuse to comply with this request.

Hitch in Recovery of Cargo.

At 9 a.m. on November 19, the petitioner in company with gendarmes despatched from the Japanese Gendarmerie Detachment in Wusich, went to the No. 2 Godown of the Bank of Shanghai, taking with him 20 coolies in five motor trucks owned by the Nippon Tsuun Kaisha and proceeded to make arrangements for the taking over of the cargo in question. Presently, Mr. H. Robertson, D.O. "A" and several other officers of the S.M.P.

arrived at the scene.

Addressing the officer with due respect, the petitioner acquainted Mr. H. Robertson with the particulars of the case and the officer declared that he could not allow any one, no matter what his nationality might be, to remove the rice in question.

On the guarantee that the cargo would be ^{pending enquiries} left intact, the party left the godown.

In view of the foregoing, the steps taken by the petitioner might be subject to criticism, but he is convinced that under the circumstances he had no alternative but to have recourse to such a measure in order to establish his innocence.

It is true that the petitioner might as well have approached the Japanese Branch of the E.M.P. for assistance in the first place, but he was obliged to omit this procedure.

The petitioner, should, therefore, be much obliged if you would kindly appreciate the steps taken by him, for whatever he did, he meant to be well and it was far from his intention to offend any one.

Yours faithfully,

Signed: K. Toyota.

Subject Japanese Military Police and Japanese Civilian attempt to seize

Made by D.S.I. Elders. Forwarded by P.S. Du Jue 2.1 1/2.

Sir,

Acting on the instruction of the D.C. "A" Division,
D.S.I. Elders and C.D.S. 336 have made further enquiries
regarding the Chinese side of the case in so far as it
affects Louza District. The result of the enquiries is
as follows:-

The godown located at 777 Soochow Road is owned by
the Shanghai Commercial & Savings Bank Ltd. The Yeh Tsang
Tuh (楊子德) Rice Shop at 208 Avenue Road rent space in
this godown for storing rice. They have done this for over
a year.

An employee of the shop named Tsang Sing Zai
(張星才) is kept on duty at the godown to take care of
the rice and keep a check on rice going out and coming
in. Rice going in and coming out is not checked by the
godown proprietor but only by the aforementioned shop
employee.

A statement has been obtained from this man (copy
attached) from which it will be seen that 125 bags of rice
were brought to the godown at about 3 p.m. on the 15-11-39.
They were sent by the Young Sing (楊生) Transportation
Co., Wusich. The persons who brought the rice to the
godown had a delivery slip from which the man Tsang Sing
Zai, in charge of the godown, learnt that the 125 bags of
rice had come from the Young Sung (楊生) Rice Hong in
Wusich. He signed this delivery slip and it was taken
away by the persons who brought the rice. He then made
an entry in his book showing that the 125 bags of rice

At about 10 a.m. on the 17-11-39 his employer, the Yah Tsang Tuh Rice Shop, 208 Avenue Road, removed 50 bags from the godown. He made an entry in his book regarding the removal of these bags.

A statement (copy attached) has also been obtained from Wong Hwai Zung (王煥成); proprietor of the Zung Fong Young (成丰永) Rice Shop at Lane 784/102 Tie-dong Road (not Tespo Road as stated in the original report).

From this statement it will be seen that this man purchased 75 bags of rice from a broker of the Yah Tsang Tuh Rice Shop, 208 Avenue Road in the Ching Liu Koh (青莲阁) Rice Shop, 515 Soochow Road on the 16-11-39. He knew that he was purchasing this rice from the said rice shop through the broker but he does not know where the rice shop obtained the rice. He received a chit from the broker which would permit him to remove the rice from where it was stored in the godown at 777 Soochow Road. The price of the rice was to be \$3,346.16 but he has not yet paid for it and has not received the rice.

The reason he went to the godown on the 19-11-39 was because two Japanese with an employee of the Avenue Road Rice shop had visited his shop on the 18-11-39 and questioned him about the 75 bags of rice and they had stated they were going to the godown at 9 a.m. on the 19-11-39.

The godown book and aforementioned chit have been seen by D.S.I. Elders and C.D.S. 336 and can be produced.

REPORT OF POLICE INVESTIGATIONS.

The following is the statement of Tsang Sing Zai (張星才) age 45,
native of Shanghai. taken by me self.
at Louza Station on the 21-11-39. and interpreted by Clerk Sih Yun Fai

I am employed as a godown keeper, residing at the Yeh
Tsong Teh Rice Shop, 208 Avenue Road.

On January 1, 1933, through the introduction of my friend
Loh Ching Wung, I obtained employment at the Yeh Tsong Teh Rice
shop, 208 Avenue Road. Later I was appointed by the shop
manager Sung Voo Young as a godown keeper to a store room
located on the 1st floor of Godown No. 2 of the Shanghai
Commercial Bank, 777 Soochow Road. My duty is to make entries
in an account book regarding the rice coming out and going
into the godown.

At about 3 p.m. on the 15-11-39 inst. 125 bags of rice were
taken to the godown by the Young Sing Transportation Company,
Wusieh. I telephoned to the accountant Sih-Ping Zhang of the
Yeh Tsong Teh Rice Shop, asking whether these bags of rice
were to be stored in the godown. In reply he stated that they
were to be stored in the godown.

At about 9 a.m. on the 17th. 50 bags of rice were taken
away by the Yeh Tsong Teh Shop on 5 wheelbarrows and hand-
trolleys, a balance of 75 bags being still stored in the
godown.

At about 10 a.m. on the 18th. a telephone message was
received from Tach S Loh, an assistant of the Yeh Tsong Teh
Rice Shop, informing me of the sale of the 75 bags of rice
to the Sung Poong Young Rice Shop, Tiendong Road, and asked
me to enter this in the book after weighing.

At 3 p.m. on the 18th. Tach S Loh accompanied Wong Hwai

and interpreted by Clerk Koo Ting I

I am the owner of the Zung Phong Wopung (成丰永) Rice Shop located at Lane 754/102 Fiedong Road. I daily visit the rice market at the Ching Lin Koh (青莲阁) Teashop 515 Soochow Road, in order to make transactions.

At 10 a.m. 16-11-39 I visited the market as usual when one named Tsang Ts Hui (张子宣) Broker of the Yah Tsong Tuh (协昌德) Rice Shop, 202 Avenue Road, approached, stating that he had 75 sacks of rice for sale, each weighing 160 catties, total value \$3,346.12, at the same time he showed me the sample of rice. I agreed to purchase these but I have not yet paid the money. He then issued a receipt and handed it over to me, it was a receipt by which the goods could be obtained.

At 10 a.m. 18-11-39 one named Pao S Loh (祝世禄) employee of the Yah Tsong Tuh Rice Shop, informed me by telephone to the effect that the above mentioned 75 sacks of rice had been deposited in an upstairs room at Shanghai Godown No.2 located at 777 Soochow Road and I was allowed to take away the goods at any time.

At 3.30 p.m. 18-11-39 Pao S Loh (祝世禄), accompanied by two Japanese came to my shop and asked me whether I had taken away the above mentioned 75 sacks of rice from the said Godown. To this I made a negative reply. The two Japanese then told me they intended to go to the said Godown at 9 a.m. the following day (19-11-39).

Later I was brought to Station for questioning.

U. S. Marines Guard Rice Hong's Visited By Japanese

Guards of the Fourth U.S. Marines yesterday reinforced members of the Shanghai Municipal Police patrolling outside two rice hong's in the Sinza district which last Saturday were visited by Japanese, allegedly in search of smuggled rice.

Altogether three rice hong's were visited Saturday by three Japanese, the third being located in the Louza district. In all cases the Japanese, said to consist of a gendarme from Wush and two Japanese employees of a transportation firm, nailed up the back doors and locked the main entrances of the hong's.

The hong's in question are situated at 13, lane 344 Burkill Road, 208 Avenue Road and 377 West Soochow Road. The latter hong was again visited by the Japanese Sunday morning, when an S.M.P. Chinese constable, who questioned the trio, was on guard.

Informed of the visits, the S.M.P. posted guards, while Marines sent

out light detachments to reinforce the S.M.P. constables at the entrances of the two hong's within their defense sector.

It was believed yesterday that the Japanese were attempting to track down rice which had been brought to Shanghai on forged passes. Further reports stated that Japanese authorities are attempting to monopolize rice from the lower Yangtze Basin for transportation to Japan and Korea in view of the shortage there.

Meanwhile, it was revealed by an S.M.C. official yesterday that the present stock of rice in Shanghai was estimated at approximately 224,000 piculs, a total considerably higher than the 50,000 piculs here last September, when prices rose to more than \$50 per picul.

Because of the recent improvement in the exchange, it was stated, a number of orders have been placed with Indo-China. One firm is said to have ordered 500 tons of Saigon rice.

JAPANESE ENDEAVOUR TO PREVENT SETTLEMENT RICE SHOPS FROM OPERATING

Recently a consignment of 125 bags of rice was secured by the Ya Chong Tuh Rice Shop (協榮泰號) at No. 206 Avenue Road from merchants in Wui-sh. It was transported here by the Yung Shing Transportation Company (永興轉運公司). Unexpectedly on the day following the arrival of this consignment, three officials of the Japanese authorities called at the shop and demanded an inspection of the transportation permit for this consignment.

Alleging that the permit was a counterfeit, the officials declared that the shop was not allowed to sell the rice and attempted to remove the whole consignment.

On the ground that the question of transportation permit is one that concerns the transportation company but has nothing to do with the shop responsible for the disposal of the rice, the shop assistants refused to comply with the demand of the Japanese. Subsequently, the Police were notified whereupon three Chinese constables were detailed to the shop for purposes of protection. As the shop is situated in the American Defence Sector, American marines were likewise despatched to the place for protection purposes in co-operation with the Police.

The shop has also 75 bags of rice stored in the godown of the Shanghai Commercial & Savings Bank. The shop has been notified by the Police not to withdraw this stock prior to the solution of the trouble and has been told to ring up the Police any time when disputes take place over this matter.

A similar incident recently took place at the Yuan Mou Rice Shop (元茂米店), No. 13, Lane 344, Burkill Road, and protection has therefore likewise been given to it by the American marines and the Police.
